## IN WHAT STATE WAS ROBERT FRANKS KILLED?

### UNITED PRESS REVEALS POINT OF THE DEFENSE

**Nobody Knows Where Franks Was Killed, Not Even Leopold or Loeb**

**DEFENSE BELIEVES BOYS WILL NEVER HANG FOR THE CRIME**

By EDWARD C. DERR  
(Copyrighted, 1924, by United Press)  
Chicago, July 19.—Where was Robert Franks killed? Illinois or Indiana?

Nobody knows, not even Nathan Leopold and Richard Loeb, youthful millionaires who confessed to the killing, the defense holds.

And this fact is the reason why the defense believes the boys will never hang for the crime, it was exclusively revealed to the United Press today.

To convict the young university graduates and to send them to the gallows, the state must prove that they killed Franks within the limits of Cook county, the defense points out. This, the defense claims, can never be proved.

If the state fails to prove that Franks was killed in Cook county, the case is no longer under the jurisdiction of the Chicago court.

If the case then goes to the court of another county or an Indiana court again it will be impossible for the prosecution to prove where Robert Franks met death, the defense claims.

Leopold and Loeb, although they made a full confession of their crime, at no time have told just where the victim died, Clarence Darrow, chief defense counsel, told the United Press. As a matter of fact, Darrow said, the defendants do not know just where the Franks boy died.

There were no witnesses to the murder. The state has only the signed confession of the slayers as testimony of how and where the crime was committed. According to the confession, this is what happened:

They met Franks and took him for an automobile ride through the exclusive residential district of Chicago's south side.

Within a few minutes after Robert got into the car one of the boys struck him over the head with a cloth-bound chisel. Then they drove across the Chicago city limits and across the county and state line into Indiana.

They had prepared gags and had brought hydrochloric acid with them to end the life of their victim. When they reached a point along a lonely road near Hessville, Ind., they prepared to undress Robert and put the finishing touches on their crime.

**Jumps in River to Save Girl Who Steals His Clothes, Cash, Watch**

Louisville, Ky., July 19.—Ernest Jewell, 23, is advising young men to be very careful about the kind of girl they rescue from drowning.

Jewell showed up at police headquarters wearing only a thin blanket and explained that a girl had made off with all his clothes, a \$50 watch and \$58 in cash.

He said he jumped into the river to rescue her from drowning and that afterwards she insisted he step behind a fringe of bushes and undress so that she could dry his clothes for him.

**FARM WAGES  
SLIGHTLY LOWER**

Slight decreases in average wages offered by farmers are indicated in the July 1 labor report compiled by F. L. French, secretary of the Minnesota Farm Bureau federation.

For general work by the day farmers are offering an average of \$2.04—a decrease of 16 cents from the figures given in the June 1 report.

For the same period last year the demand was strong. This year the demand is weak.

This report is based on returns from 20 counties in different sections of the state.

## U. S. Will Take Vigorous Action Against Persia

### FOREIGN POWERS MAY INTERVENE IN BRAZIL, STATED

(By United Press)  
Buenos Aires, July 19.—Intervention of foreign powers in Brazil to protect rights of their nationals was discussed by the Argentine press today.

Italy and other European nations are expected to make immediate gestures to protest against the inability of the government at Rio de Janeiro to give assurances that the rights of foreigners will be maintained.

A request that a United States warship be sent to Santos to maintain the rights of American citizens and protect American property there led to anticipation of similar action by other nations.

### MILL CITY POLICE PURITY SQUAD KILLS

**FIRE 5 SHOTS INTO AUTOMOBILE AND KILLED ARTHUR NELSON**

**LATTER WAS FARMER RESIDING NEAR TOWN OF ROBBINSDALE**

(By United Press)  
Minneapolis, July 19.—A police purity squad fired five shots into an automobile and killed Arthur Nelson, 24, Robbinsdale farmer, here late yesterday.

According to police the squad, composed of Patrolmen Robert Little, Carl Wenell and A. S. Uglem, were returning with some liquor found at the home of Frank Mrs. A. Jug was carried on the running board and held by one of them.

Another car, in which Arthur Nelson and a cousin, William Nelson, were riding, drove up alongside of the police car and asked for a drink. The two cars locked wheels and the patrolmen forced Nelson to pull up to the curb. Then he offered to surrender to the police, and when the patrolmen unlocked the wheels he sped away, police said.

Larson said he fired one shot at the ground and two at the car, and Little said he fired two at the auto. Nelson was shot in the head and died in an ambulance on the way to General Hospital.

All four patrolmen were dressed in civilian clothes.

### PRESIDENT LINCOLN SHIP ON FIRE

(By United Press)  
San Francisco, July 19.—Fire in the storerooms and cabins of the Pacific Mail liner President Lincoln threatened the big ship with destruction today and caused \$12,000 damage before city firemen and bluejackets from the U. S. S. Tennessee extinguished the flames.

The fire was believed to have started from a cigarette dropped by a Chinese coolie.

The Tennessee and the dock at Hunter's Point, where both vessels were lying, also were threatened for a time.

### SAYS BREAD PRICES NOT TO BE AFFECTED

(Copyrighted, 1924, by United Press)  
Minneapolis, July 19.—The dollar a barrel rise in top flour prices since May 1 is not likely to affect bread prices according to Twin City bakers today.

Large bakeries carry enough flour on hand bought at the best possible advantage to carry them 60 days if necessary, they point out. This, they believe, will carry them over the period of the price fluctuation.

Bread prices are not solely governed by flour prices any way, bakers said. Other factors enter into the cost of bread, so that it takes about a \$3 a barrel change in flour prices to make a difference of one cent a loaf in bread prices.

### SECY. HUGHES MAY DOMINATE THE CONFERENCE

**SO LOOKED UPON TODAY BY THE EUROPEAN STATESMEN**

**PARLEY AT PRESENT DEADLOCK—IN COMMITTEE STAGE**

(By United Press)  
London, July 19.—Taking no part in the reparations conference, but here at hand where Ambassador Kellogg and American participants can consult him, Secretary Hughes was looked upon today by European statesmen as the possible dominating figure behind the scenes of this, the fifteenth inter-allied effort since Versailles to make Germany pay.

Secretary Hughes arrived in London to find the conference still deadlocked in the committee stage—France and Britain disputing over the former's right to a free hand with Germany in case she is adjudged to have defaulted payments.

The committee that is considering recommendations on the matter met today and reported progress, but efforts of Italian, Belgian and American members failed to reconcile the French and British viewpoints.

In an interview Hughes reiterated that he would take no part in the inter-allied conference, but said he was "making no attempt to conceal American interest in the experts' plan."

Hughes arranged to meet Premier MacDonald of Britain and Premier Herriot of France personally but informally while here.

The presence of the head of the state department in London obviously will facilitate action by Ambassador Kellogg, Col. James A. Logan, Jr., and other Americans who are taking part in the conference.

### Charley Bryan Ignores Democratic Plea to Discard Skull Cap

Lincoln, Neb., July 19.—Gov. Charley Bryan of Nebraska, Democratic vice presidential nominee, today issued a declaration of independence in defense of his famous skull cap.

"The skull cap is a necessity and has to be worn," Bryan said, announcing he would ignore the wishes of certain Democratic party leaders who believe the skull cap is undignified.

When a toupee was suggested, Bryan said: "I've tried a toupee also. It won't keep the light from the nerves on the top of my head."

### WOMAN, 67, WINS \$24,000 ALIMONY FROM MATE, 70

St. Paul, July 19.—Mrs. Sophia Burton, 67, is entitled to \$24,000 alimony, and \$2,000 attorney fees from David Burton, 70, according to the supreme court.

Mrs. Burton, formerly a St. Louis Park hotelkeeper, was married to Mr. Burton in 1916. In December, 1921, she sued for divorce, alleging inhuman treatment. Her husband, she showed, was worth \$160,000. He appealed from the alimony verdict, alleging it was excessive.

Mr. Burton is president of the First National bank of Wheaton.

### Wheat Prices Move Up Sharply Chicago Board of Trade

(By United Press)  
Chicago, July 19.—Wheat prices moved up sharply on the Chicago Board of Trade, while other grains scored fractional gains on reports of increased export demand.

July wheat closed at \$1.28 1/2, a gain of 2 1/2 cents over opening. September wheat gained 1 1/2 cents, closing at \$1.29 1/2.

### BURTON WHEELER AS RUNNING MATE OF LA FOLLETTE

(By United Press)  
Washington, July 19.—Burton K. Wheeler, Democratic senator from Montana, today formally announced his acceptance of the independent nomination for vice president to run with Senator Robert M. La Follette.

In a statement from his office, Wheeler made known his decision to take the nomination, formally tendered him yesterday by the conference for progressive political action.

Wheeler's acceptance of the nomination came at the urgent solicitation of Senator La Follette, independent candidate for president.

Wheeler announced his acceptance of the nomination in a letter to the national committee of the conference for progressive political action.

The letter was presented to a "committee of inquiry" which called at the Montana senator's office to receive his acceptance of the nomination. The letter was made public simultaneously with its delivery to the committee.

The committee was the same which yesterday formally notified Wheeler of his nomination by the national committee as Senator La Follette's running mate.

### MAINTENANCE OF WAY MEN ENDORSE LA FOLLETTE

Detroit, Mich., July 19.—Senator Robert M. La Follette was unanimously endorsed for president by national officers and general chairmen of the United Brotherhood of Maintenance of Way Employees and Railroad Shop Laborers in their annual meeting here.

The officers represent 300,000 maintenance of way employees.

The resolution that Senator La Follette be given "unanimous, unqualified and whole-hearted support of the railroad maintenance of way employees in his campaign for president of the United States."

Officers plan to take an active part in the La Follette campaign. Workers are urged to send in small contributions to the campaign fund.

### TAXPAYER CANNOT HALT SCHOOL BOARD ACTS, IS RULING

St. Paul, July 19.—A taxpayer cannot maintain an action to prevent a district school board from employing a superintendent of schools.

The state supreme court so ruled today. Peder B. Jensen, a resident of a rural school district in Hennepin county, had brought an action to restrain the school board from employing H. L. Anderson as superintendent to succeed S. M. Pinney.

Jensen contended that Pinney was under contract for three years when the board made the change and that the discharge of Pinney and the employment of his successor would entail unnecessary expense on the district. The change was made in October, 1923.

### NEW YORK AUTOS ARRIVE IN ST. PAUL

St. Paul, July 19.—A "caravan" of 100 automobiles brought members of the New York Automobile club to St. Paul today.

The tourists are on a transcontinental trip to California and probably will stop in St. Paul over Sunday.

Bernard McMahon, who conducted the Shriners' overland tour last year, is in charge.

The party was welcomed in St. Paul by a committee representing the St. Paul Automobile club, headed by C. A. Meyer.

Note—This is the party which the Brainerd Dispatch urged the Chamber of Commerce to address a welcome to visit the 10,000 Lakes region in the vicinity of Brainerd.

### LAST MAN'S CLUB BANQUET DRY AS USUAL

**3 OLD CIVIL WAR VETERANS TO DRINK TOAST WITH WATER**

**LITTLE OLD QUART BOTTLE OF BURGUNDY WILL NOT BE TOUCHED**

(By United Press)  
Stillwater, Minn., July 19.—Monday's banquet of the Last Man's club will be dry as usual.

When Peter Hall of Atwater rises to toast comrades who have gone before, three old Civil War veterans will lift glasses of water instead of Burgundy.

The little old quart which has reposed in the cherry-wood case for more than 30 years will not be opened this year—unless the old soldiers change their minds at the last minute. They thought last year that the bottle would be opened this year, but have almost decided that it would be best to hold to the original purpose that the last remaining survivor of B Company, First Minnesota Infantry, shall drink a solitary toast when all other members have gone.

Only four of the original 33 are alive. Emil Graft, now living in Florida, will not be present. Peter Hall, John Goff, of the Minnesota Soldiers' home and Charles Lockwood of Chamberlain, S. D., are expected to attend.

There will be four places set and at one end of the table will be arranged a large black plaque lined with white on which the names of departed members of the Last Man's Club will be pinned. To each name will be attached a wild flower. The company colors, held in reverence by the club for these 38 years, will be draped over the end of the table and will be sprinkled with wild flowers.

At one side of the room where the banquet is scheduled another table will be set for a few widows of departed members.

### AMERICAN LEGION TO HONOR CLUB

St. Paul, July 19.—The American Legion convention here will honor survivors of the Last Man's Club.

Arrangements were made today for the national Legion convocation September 15 to 19 to entertain the old soldiers as honored guests.

The St. Paul Association will take charge of their comfort and well being.

### OPEN SHOP MINES BEING GUARDED

**GUARDS TO PREVENT INTERFERENCE BY UNION SYMPATHIZERS**

(By United Press)  
Wilburton, Okla., July 19.—Large forces of guards were on duty today around mines in this territory operating on an open shop basis to prevent a threatened interference by union sympathizers.

National guardsmen also were held in readiness to be rushed here in case the situation gets beyond control of local authorities. The first outbreak occurred when 100 sympathizers with men now on strike descended into the Kall-Inla mine, disarmed guards and forced 175 men to leave their work.

### Frills to Girls' Names

A generation ago the majority of girl babies in America were given plain names, such as Mary, Helen, Ann and Jane, but now what are known as "fussy" names seem to prevail. The year book of one of the women's colleges reveals the fact that where one girl answers to the name of Alice or Ann, a dozen or more bear such fancy appellations as Annette, Anita, Ardita, Arietta, Ardella and Arsenia.

### FOG AGAIN HOLDS UP WORLD FLIGHT OF MAJ. MacLAREN

Tokio, July 19.—Unfavorable weather and fog over the Kuriles forced Major A. Stewart MacLaren, British world flier, to postpone resumption of his flight. He may go on to Paramushira Sunday.

The illness of Lieut.-Col. Broom, who is flying with MacLaren from Tokyo through the North Pacific, was a contributing cause to the delay. The illness, according to radio advices, was not serious.

### HORROR TALE OF WHITE WOMEN TAKEN BY BLACKS

**NATIVE BOATMAN TELLS PORT DARWIN OF END OF ENGLISH STEAMER**

**ABORIGINES SPEARED MALE SURVIVORS AND THEN KIDNAPED WOMEN**

(Copyrighted, 1924, by United Press)  
Melbourne, Australia, July 19.—A native boatman, tacking his coasting skiff into the harbor at Port Darwin, chattered a tale of the kidnapping of white women by blacks which blanched the faces of his hearers and drove Australia to arms and a rescue expedition, although the tragedy took place more than a year ago.

The government has authorized the administrator of the Northern Territory to enlist volunteers and arm strong relief forces to go into the fearsome unexplored areas of the rugged north coast in search of Mrs. James Willetts and her daughter, who were carried off by aborigines after the entire crew and the male passengers of the steamer Douglas Mawson had been speared to death on the sands of the gulf of Carpentaria. The last seen of the unfortunate mother and daughter, who, it is believed, may have long since died, was as they disappeared into the bushes surrounded by black captors, who shook spears and threatened to kill native black witnesses if they attempted rescue.

The Steamer Douglas Mawson disappeared in March, 1923, and six months later was listed as lost by Lloyd's. The fate of the vessel's crew was unknown until by chance the native crew of a small coasting boat received a visit from an island adjacent to the wild, almost uninhabited coast of the Northern Territory.

From blacks who live on the slopes near Cape Wilberforce native boatmen heard, for the first time, the story of the end of the Douglas Mawson. The steamer, it appeared, had been trading in the gulf just before the disaster. The shipwrecked party made their way to the beach in a small boat. Subsequently a large force of black aborigines, a fierce tribe from out of the bush, rushed upon the survivors.

The males, putting up all the resistance they could, were impaled on the sands with huge spears and later buried. The two women, the wife and daughter of James Willetts, passengers who had boarded the steamer at Normantown, were carefully spared. When the slaughter was over the blacks moved off in to the bush, taking the women.

Once when friendly natives would have interfered the aborigines made signs they would spear their captives to death if a rescue were attempted or if the women made any effort to signal their plight to chance passing vessels.

Representative Nelson urged the Northern Territory yesterday urged Premier Bruce to send armed men in search of the women in the hope that they might be found. The government authorized the enlistment of volunteers and re-enforcement of the northern police, for a strong force will be necessary. The crew of a Japanese steamer and a Malay ship recently were murdered in the same locality.

### AMERICAN VICE CONSUL BEATEN TO DEATH

**PERSIAN NATIVE MOB ATTACKED AND KILLED MAJOR ROBERT W. IMBRIE**

**RESENTED HIS ATTEMPT TO PHOTOGRAPH SO-CALLED 'MAGIC FOUNTAIN'**

(By United Press)  
Washington, July 19.—Upon receipt of official confirmation today of the killing of Robert W. Imbrie, American vice-consul at Teheran, the United States government prepared vigorous action to secure amends for the murder. Confirmation of the killing of Imbrie arrived at the State Department from the American legation at Teheran.

### MOB WAS FANATIC AGAINST FOREIGNERS

Teheran, Persia, July 19.—Major Robert W. Imbrie, American vice-consul, was beaten to death by a native mob here Friday. The Persians resented an attempt by Major Imbrie to photograph a so-called "magic fountain" of which the natives stand in awe.

An American who was with the consul was severely injured and is in a hospital.

The murder of Major Imbrie occurred at 5 p. m. Friday and was perpetrated by a mob made fanatic by recent agitation against foreigners.

Robert Whitney Imbrie was born in Washington, D. C., April 23, 1884, and was graduated from George Washington University in 1905. He was engaged in the practice of law from 1909 to 1915. He volunteered in the French army in 1915 and served until 1917. Appointed vice-consul at Petrograd on August 24, 1917, later he was assigned as vice-consul at Viborg December 22, 1919. He was sent to Constantinople as vice-consul October 13, 1920.

Major Imbrie was married less than two years ago to Miss Katherine Gillespie of New Rochelle, N. Y., when she was directing the Near East relief orphanage in the former Turkish capital.

### WIFE OF IMBRIE INFORMED STATE DEPT.

Washington, July 19.—The first news of the killing of Imbrie was received by the state department from the wife of Imbrie, who is at Teheran. Then official confirmation came from the legation.

Another American named Seymour, who was under tacit arrest for conviction by consular court, was with Imbrie and was badly hurt, the state department cable said.

The Americans were set upon by an infuriated mob of natives when they attempted to take photographs of a number of maimed persons seeking a cure before the sacred spot.

One of the first steps to be taken by the state department is expected to be an inquiry for the purpose of establishing if Persian police tried to protect the Americans. A vigorous protest is expected to be dispatched to the Persian government in the near future.

### Tribute to Antwerp

Antwerp is so green and pleasant a city, writes Michael Done, that in no other port to which I have come in my journeyings have I found such a wealth of trees, growing down the length of the great streets of mighty and ancient buildings, making so kind a shade in the truly named Place Verte before the great cathedral whose tower, 400 feet high, watches the winding course of the river which has borne the keels of so many generations.

### Keep Fish in "Freezer"

"Freezer houses" kept at a temperature as low as 16 degrees below zero have been used for keeping fish in a good condition longer than a year.

## IN WHAT STATE WAS ROBERT FRANKS KILLED?

### UNITED PRESS REVEALS POINT OF THE DEFENSE

**NOBODY KNOWS WHERE FRANKS WAS KILLED, NOT EVEN LEOPOLD OR LOEB**

**DEFENSE BELIEVES BOYS WILL NEVER HANG FOR THE CRIME**

By EDWARD C. DERR  
(Copyrighted, 1924, by United Press)  
Chicago, July 19.—Where was Robert Franks killed? Illinois or Indiana?

Nobody knows, not even Nathan Leopold and Richard Loeb, youthful millionaires who confessed to the killing, the defense holds.

And this fact is the reason why the defense believes the boys will never hang for the crime, it was exclusively revealed to the United Press today.

To convict the young university graduates and to send them to the gallows, the state must prove that they killed Franks within the limits of Cook county, the defense points out. This, the defense claims, can never be proved.

If the state fails to prove that Franks was killed in Cook county, the case is no longer under the jurisdiction of the Chicago court.

If the case then goes to the court of another county or an Indiana court again it will be impossible for the prosecution to prove where Robert Franks met death, the defense claims.

Leopold and Loeb, although they made a full confession of their crime, at no time have told just where the victim died, Clarence Darrow, chief defense counsel, told the United Press. As a matter of fact, Darrow said, the defendants do not know just where the Franks boy died.

There were no witnesses to the murder. The state has only the signed confession of the slayers as testimony of how and where the crime was committed. According to the confession, this is what happened:

They met Franks and took him for an automobile ride through the exclusive residential district of Chicago's south side.

Within a few minutes after Robert got into the car one of the boys struck him over the head with a cloth-bound chisel. Then they drove across the Chicago city limits and across the county and state line into Indiana.

They had prepared gags and had brought hydrochloric acid with them to end the life of their victim. When they reached a point along a lonely road near Hessville, Ind., they prepared to undress Robert and put the finishing touches on their crime.

### Jumps in River to Save Girl Who Steals His Clothes, Cash, Watch

Louisville, Ky., July 19.—Ernest Jewell, 23, is advising young men to be very careful about the kind of girl they rescue from drowning.

Jewell showed up at police headquarters wearing only a thin blanket and explained that a girl had made off with all his clothes, a \$50 watch and \$58 in cash.

He said he jumped into the river to rescue her from drowning and that afterwards she insisted he step behind a fringe of bushes and undress so that she could dry his clothes for him.

### FARM WAGES SLIGHTLY LOWER

Slight decreases in average wages offered by farmers are indicated in the July 1 labor report compiled by F. L. French, secretary of the Minnesota Farm Bureau federation.

For general work by the day farmers are offering an average of \$2.04—a decrease of 16 cents from the figures given in the June 1 report.

For the same period last year the demand was strong. This year the demand is weak.

This report is based on returns from 20 counties in different sections of the state.

## U. S. Will Take Vigorous Action Against Persia

### FOREIGN POWERS MAY INTERVENE IN BRAZIL, STATED

(By United Press)  
Buenos Aires, July 19.—Intervention of foreign powers in Brazil to protect rights of their nationals was discussed by the Argentine press today.

Italy and other European nations are expected to make immediate gestures to protest against the inability of the government at Rio de Janeiro to give assurances that the rights of foreigners will be maintained.

A request that a United States warship be sent to Santos to maintain the rights of American citizens and protect American property there led to anticipation of similar action by other nations.

### MILL CITY POLICE PURITY SQUAD KILLS

**FIRE 5 SHOTS INTO AUTOMOBILE AND KILLED ARTHUR NELSON**

**LATTER WAS FARMER RESIDING NEAR TOWN OF ROBBINSDALE**

(By United Press)  
Minneapolis, July 19.—A police purity squad fired five shots into an automobile and killed Arthur Nelson, 24, Robbinsdale farmer, here late yesterday.

According to police the squad, composed of Patrolmen Robert Little, Carl Wenell and A. S. Uglem, were returning with some liquor found at the home of Frank Mrs. A jug was carried on the running board and held by one of them.

Another car, in which Arthur Nelson and a cousin, William Nelson, were riding, drove up alongside of the police car and asked for a drink. The two cars locked wheels and the patrolmen unlocked the wheels he sped away, police said. Larson said he fired one shot at the ground and two at the car, and Little said he fired two at the auto. Nelson was shot in the head and died in an ambulance on the way to General Hospital.

All four patrolmen were dressed in civilian clothes.

### PRESIDENT LINCOLN SHIP ON FIRE

(By United Press)  
San Francisco, July 19.—Fire in the staterooms and cabins of the Pacific Mail liner President Lincoln threatened the big ship with destruction today and caused \$12,000 damage before city firemen and bluejackets from the U. S. S. Tennessee extinguished the flames.

The fire was believed to have started from a cigaret dropped by a Chinese coolie.

The Tennessee and the dock at Hunter's Point, where both vessels were lying, also were threatened for a time.

### SAYS BREAD PRICES NOT TO BE AFFECTED

(Copyrighted, 1924, by United Press)  
Minneapolis, July 19.—The dollar a barrel rise in top flour prices since May 1 is not likely to affect bread prices according to Twin City bakers today.

Large bakeries carry enough flour on hand bought at the best possible advantage to carry them 60 days if necessary, they point out. This, they believe, will carry them over the period of the price fluctuation.

Bread prices are not solely governed by flour prices any way, bakers said. Other factors enter into the cost of bread, so that it takes about a \$3 a barrel change in flour prices to make a difference of one cent a loaf in bread prices.

### SECY. HUGHES MAY DOMINATE THE CONFERENCE

**SO LOOKED UPON TODAY BY THE EUROPEAN STATESMEN**

**PARLEY AT PRESENT DEADLOCK IN COMMITTEE STAGE**

(By United Press)  
London, July 19.—Taking no part in the reparations conference, but here at hand where Ambassador Kellogg and American participants can consult him, Secretary Hughes was looked upon today by European statesmen as the possible dominating figure behind the scenes of this, the fifteenth inter-allied effort since Versailles to make Germany pay.

Secretary Hughes arrived in London to find the conference still deadlocked in the committee stage—France and Britain disputing over the former's right to a free hand with Germany in case she is adjudged to have defaulted payments.

The committee that is considering recommendations on the matter met today and reported progress, but efforts of Italian, Belgian and American members failed to reconcile the French and British viewpoints.

In an interview Hughes reiterated that he would take no part in the inter-allied conference, but said he was "making no attempt to conceal American interest in the experts' plan."

Hughes arranged to meet Premier MacDonald of Britain and Premier Herriot of France personally but informally while here.

The presence of the head of the state department in London obviously will facilitate action by Ambassador Kellogg, Col. James A. Logan, Jr., and other Americans who are taking part in the conference.

### Charley Bryan Ignores Democratic Plea to Discard Skull Cap

Lincoln, Neb., July 19.—Gov. Charley Bryan of Nebraska, Democratic vice presidential nominee, today issued a declaration of independence in defense of his famous skull cap.

"The skull cap is a necessity and has to be worn," Bryan said, announcing he would ignore the wishes of certain Democratic party leaders who believe the skull cap is undignified.

When a toupee was suggested, Bryan said: "I've tried a toupee also. It won't keep the light from the nerves on the top of my head."

### WOMAN, 67, WINS \$24,000 ALIMONY FROM MATE, 70

St. Paul, July 19.—Mrs. Sophia Burton, 67, is entitled to \$24,000 alimony, and \$2,000 attorney fees from David Burton, 70, according to the supreme court.

Mrs. Burton, formerly a St. Louis Park hotelkeeper, was married to Mr. Burton in 1910. In December, 1921, she sued for divorce, alleging inhuman treatment. Her husband, she showed, was worth \$160,000. He appealed from the alimony verdict, alleging it was excessive.

Mr. Burton is president of the First National bank of Wheaton.

### Wheat Prices Move Up Sharply Chicago Board of Trade

(By United Press)  
Chicago, July 19.—Wheat prices moved up sharply on the Chicago Board of Trade, while other grains scored fractional gains on reports of increased export demand.

July wheat closed at \$1.28 3/4, a gain of 2 1/2 cents over opening. September wheat gained 1 1/2 cents, closing at \$1.29 1/2.

### BURTON WHEELER AS RUNNING MATE OF LA FOLLETTE

(By United Press)  
Washington, July 19.—Burton K. Wheeler, Democratic senator from Montana, today formally announced his acceptance of the independent nomination for vice president to run with Senator Robert M. La Follette.

In a statement from his office, Wheeler made known his decision to take the nomination, formally tendered him yesterday by the conference for progressive political action.

Wheeler's acceptance of the nomination came at the urgent solicitation of Senator La Follette, independent candidate for president.

Wheeler announced his acceptance of the nomination in a letter to the national committee of the conference for progressive political action.

The letter was presented to a "committee of inquiry" which called at the Montana senator's office to receive his acceptance of the nomination. The letter was made public simultaneously with its delivery to the committee.

The committee was the same which yesterday formally notified Wheeler of his nomination by the national committee as Senator La Follette's running mate.

### MAINTENANCE OF WAY MEN ENDORSE LA FOLLETTE

Detroit, Mich., July 19.—Senator Robert M. La Follette was unanimously endorsed for president by national officers and general chairmen of the United Brotherhood of Maintenance of Way Employees and Railroad Shop Laborers in their annual meeting here.

The officers represent 300,000 maintenance of way employees.

The resolution that Senator La Follette be given "unanimous, unqualified and whole-hearted support of the railroad maintenance of way employees in his campaign for president of the United States."

Officers plan to take an active part in the La Follette campaign. Workers are urged to send in small contributions to the campaign fund.

### TAXPAYER CANNOT HALT SCHOOL BOARD ACTS, IS RULING

St. Paul, July 19.—A taxpayer cannot maintain an action to prevent a district school board from employing a superintendent of schools.

The state supreme court so ruled today. Peder B. Jensen, a resident of a rural school district in Hennepin county, had brought an action to restrain the school board from employing H. L. Anderson as superintendent to succeed S. M. Pinney.

Jensen contended that Pinney was under contract for three years when the board made the change and that the discharge of Pinney and the employment of his successor would entail unnecessary expense on the district. The change was made in October, 1923.

### NEW YORK AUTOS ARRIVE IN ST. PAUL

St. Paul, July 19.—A "caravan" of 100 automobiles brought members of the New York Automobile club to St. Paul today.

The tourists are on a transcontinental trip to California and probably will stop in St. Paul over Sunday.

Bernard McMahon, who conducted the Shriners' overland tour last year, is in charge.

The party was welcomed in St. Paul by a committee representing the St. Paul Automobile club, headed by C. A. Meyer.

Note—This is the party which the Brainerd Dispatch urged the Chamber of Commerce to address a welcome to visit the 10,000 Lakes region in the vicinity of Brainerd.

### LAST MAN'S CLUB BANQUET DRY AS USUAL

**3 OLD CIVIL WAR VETERANS TO DRINK TOAST WITH WATER**

**LITTLE OLD QUART BOTTLE OF BURGUNDY WILL NOT BE TOUCHED**

(By United Press)  
Stillwater, Minn., July 19.—Monday's banquet of the Last Man's club will be dry as usual.

When Peter Hall of Atwater rises to toast comrades who have gone before, three old Civil War veterans will lift glasses of water instead of Burgundy.

The little old quart which has reposed in the cherry-wood case for more than 30 years will not be opened this year—unless the old soldiers change their minds at the last minute. They thought last year that the bottle would be opened this year, but have almost decided that it would be best to hold to the original purpose that the last remaining survivor of B Company, First Minnesota Infantry, shall drink a solitary toast when all other members have gone.

Only four of the original 33 are alive. Emil Graft, now living in Florida, will not be present. Peter Hall, John Goff, of the Minnesota Soldiers' home and Charles Lockwood of Chamberlain, S. D., are expected to attend.

There will be four places set and at one end of the table will be arranged a large black plaque lined with white on which the names of departed members of the Last Man's Club will be pinned. To each name will be attached a wild flower. The company colors, held in reverence by the club for these 38 years, will be draped over the end of the table and will be sprinkled with wild flowers.

At one side of the room where the banquet is scheduled another table will be set for a few widows of departed members.

### AMERICAN LEGION TO HONOR CLUB

St. Paul, July 19.—The American Legion convention here will honor survivors of the Last Man's Club. Arrangements were made today for the national Legion convocation September 15 to 19 to entertain the old soldiers as honored guests.

The St. Paul Association will take charge of their comfort and well being.

### OPEN SHOP MINES BEING GUARDED

**GUARDS TO PREVENT INTERFERENCE BY UNION SYMPATHIZERS**

(By United Press)  
Wilburton, Okla., July 19.—Large forces of guards were on duty today around mines in this territory operating on an open shop basis to prevent a threatened interference by union sympathizers.

National guardsmen also were held in readiness to be rushed here in case the situation gets beyond control of local authorities. The first outbreak occurred when 100 sympathizers with men now on strike descended into the Kall-Inla mine, disarmed guards and forced 175 men to leave their work.

### Frills to Girls' Names

A generation ago the majority of girl babies in America were given plain names, such as Mary, Helen, Ann and Jane, but now what are known as "fussy" names seem to prevail. The year book of one of the women's colleges reveals the fact that where one girl answers to the name of Alice or Ann, a dozen or more bear such fancy appellations as Annette, Anita, Ardella, Arietta, Ardella and Arsenia.

### FOG AGAIN HOLDS UP WORLD FLIGHT OF MAJ. MacLAREN

Tokio, July 19.—Unfavorable weather and fog over the Kuriles forced Major A. Stewart MacLaren, British world flier, to postpone resumption of his flight. He may go on to Paramushira Sunday.

The illness of Lieut.-Col. Broom, who is flying with MacLaren from Tokio through the North Pacific, was a contributing cause to the delay. The illness, according to radio advices, was not serious.

### HORROR TALE OF WHITE WOMEN TAKEN BY BLACKS

**NATIVE BOATMAN TELLS PORT DARWIN OF END OF ENGLISH STEAMER**

**ABORIGINES SPEARED MALE SURVIVORS AND THEN KIDNAPED WOMEN**

(Copyrighted, 1924, by United Press)  
Melbourne, Australia, July 19.—A native boatman, tacking his coasting skiff into the harbor at Port Darwin, chattered a tale of the kidnapping of white women by blacks which blanched the faces of his hearers and drove Australia to arms and a rescue expedition, although the tragedy took place more than a year ago.

The government has authorized the administrator of the Northern Territory to enlist volunteers and arm strong relief forces to go into the fearsome unexplored areas of the rugged north coast in search of Mrs. James Willetts and her daughter, who were carried off by aborigines after the entire crew and the male passengers of the steamer Douglas Mawson had been speared to death on the sands of the gulf of Carpentaria.

The last seen of the unfortunate mother and daughter, who, it is believed, may have long since died, was as they disappeared into the bushes surrounded by black captors, who shook spears and threatened to kill native black witnesses if they attempted rescue.

The Steamer Douglas Mawson disappeared in March, 1923, and six months later was listed as lost by Lloyd's. The fate of the vessel's crew was unknown until by chance the native crew of a small coasting boat received a visit from an island adjacent to the wild, almost uninhabited coast of the Northern Territory.

From blacks who live on the slopes near Cape Wilberforce native boatmen heard, for the first time, the story of the end of the Douglas Mawson. The steamer, it appeared, had been trading in the gulf just before the disaster. The shipwrecked party made their way to the beach in a small boat. Subsequently a large force of black aborigines, a fierce tribe from out of the bush, rushed upon the survivors.

The males, putting up all the resistance they could, were impaled on the sands with huge spears and later buried. The two women, the wife and daughter of James Willetts, passengers who had boarded the steamer at Normantown, were carefully spared. When the slaughter was over the blacks moved off in to the bush, taking the women.

Once when friendly natives would have interfered the aborigines made signs they would spear their captives to death if a rescue were attempted or if the women made any effort to signal their plight to chance passing vessels.

Representative Nelson from the Northern Territory yesterday urged Premier Bruce to send armed men in search of the women in the hope that they might be found. The government authorized the enlistment of volunteers and re-enforcement of the northern police, for a strong force will be necessary. The crew of a Japanese steamer and a Malay ship recently were murdered in the same locality.

### AMERICAN VICE CONSUL BEATEN TO DEATH

**PERSIAN NATIVE MOB ATTACKED AND KILLED MAJOR ROBERT W. IMBRIE**

**RESENTED HIS ATTEMPT TO PHOTOGRAPH SO-CALLED 'MAGIC FOUNTAIN'**

(By United Press)  
Washington, July 19.—Upon receipt of official confirmation today of the killing of Robert W. Imbrie, American vice-consul at Teheran, the United States government prepared vigorous action to secure amends for the murder. Confirmation of the killing of Imbrie arrived at the State Department from the American legation at Teheran.

### MOB WAS FANATIC AGAINST FOREIGNERS

Teheran, Persia, July 19.—Major Robert W. Imbrie, American vice-consul, was beaten to death by a native mob here Friday. The Persians resented an attempt by Major Imbrie to photograph a so-called "magic fountain" of which the natives stand in awe.

An American who was with the consul was severely injured and is in a hospital.

The murder of Major Imbrie occurred at 5 p. m. Friday and was perpetrated by a mob made fanatic by recent agitation against foreigners.

Robert Whitney Imbrie was born in Washington, D. C., April 23, 1884, and was graduated from George Washington University in 1905. He was engaged in the practice of law from 1909 to 1915. He volunteered in the French army in 1915 and served until 1917. Appointed vice-consul at Petrograd on August 24, 1917, later he was assigned as vice-consul at Viborg December 22, 1919. He was sent to Constantinople as vice-consul October 13, 1920.

Major Imbrie was married less than two years ago to Miss Katherine Gillespie of New Rochelle, N. Y., when she was directing the Near East relief orphanage in the former Turkish capital.

### WIFE OF IMBRIE INFORMED STATE DEPT.

Washington, July 19.—The first news of the killing of Imbrie was received by the state department from the wife of Imbrie, who is at Teheran. Then official confirmation came from the legation.

Another American named Seymour, who was under tacit arrest for conviction by consular court, was with Imbrie and was badly hurt, the state department cable said.

The Americans were set upon by an infuriated mob of natives when they attempted to take photographs of a number of famed persons seeking a cure before the sacred spot.

One of the first steps to be taken by the state department is expected to be an inquiry for the purpose of establishing if Persian police tried to protect the Americans. A vigorous protest is expected to be dispatched to the Persian government in the near future.

### Tribute to Antwerp

Antwerp is so green and pleasant a city, writes Michael Dons, that in no other port to which I have come in my journeyings have I found such a wealth of trees, growing down the length of the great streets of mighty and ancient buildings, making so kind a shade in the truly named Place Verte before the great cathedral whose tower, 400 feet high, watches the winding course of the river which has borne the keels of so many generations.

**Keep Fish in "Freezer"**  
"Freezer houses" kept at a temperature as low as 16 degrees below zero have been used for keeping fish in a good condition longer than a year.

Rooster Is Family Alarm Clock, Baby's Nurse  
Eats at Table from Own Plate and Rides in Auto

Bingham, owned by W. E. Harwell, Jr., son of an Atlanta, Ga., city official, is a very accomplished rooster. Every morning he waits for the cook to open the back door, enters the house and calls the family. He eats at the family table from his own plate and his manners are so nearly perfect that he is seldom sent from the table for a breach of etiquette. When the Harwells go automobiling Bingham perches himself alongside the driver. He is shown here acting as nurse to the baby member of the family, another duty he performs well.

## Automatic Fognhorn

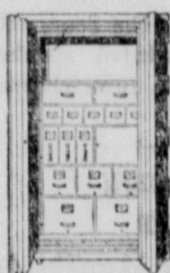

Few people realize the extent to which human life is safeguarded by automatic devices. Popular Mechanics Magazine remarks. Among the latest of these is a fognhorn valve, controlled by a few strands of human hair. The hairs are stretched across a wooden frame, and the ends are fastened to a series of sensitive springs. When a fog comes up the hairs become moist and expand. This sets the horn in operation. After the fog is dissipated, the hairs contract and shut off the horn.

## Fast Black

Sam was a porter in a large hotel. One day he approached his employer with a request for a position for his brother down in Tennessee. Having secured it, in due time the brother arrived. He was several shades darker than Sam, and his employer remarked "Sam, your brother is rather dark isn't he?"

"He sure am," replied Sam. "He's so black dat down home in Tennessee de lightin' bugs follow him aroun' all day, 'cause they think it's night.—Los Angeles Times.

## Trick of Human Nature

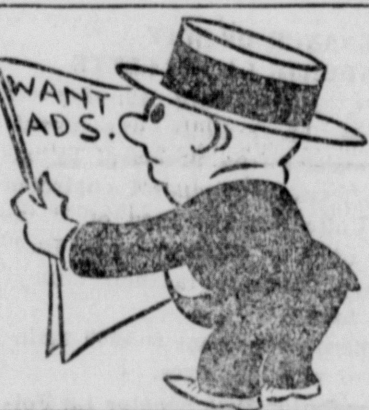

A republic is the form of government in which those who will not vote denounce the choices of those who do.—Boston Herald.

## All Fear "Duppy"

"Duppy" is the legendary horror of the Jamaica Negro. To see "Duppy," who is variously characterized as a woman in red, a lame man or a white-sheeted figure at night, means calamities without number.

## Letting Bore Down Easy

A bore is usually considered a harmless creature, or of that class of irrational bipeds who hurt only themselves.—Maria Edgeworth.

† † †  
**First Methodist Church**  
Services for the week commencing July 20.  
The morning services will be at 10:30 o'clock, the pastor, E. A. Cooke preaching the sermon. There will be special music.

At 11:15 the church school will hold its regular session.  
In the evening Miss Grace Downs, pastor of our Methodist church at Pillager and for five years missionary in South America, will speak and give the story of her experience in the mission field. Miss Downs is a bright young woman and will have a story full of interest and we bespeak for her a large attendance.  
Services will be held on Thursday evening at 8 o'clock. The public and especially strangers are given a cordial invitation to this service.

**Canada Has Own Flag**  
Display of Canada's new "national flag" on formal occasions and officially has been made. The old flag for Canadian merchant ships was used for 30 years, but two years ago King George authorized the use of a new Canadian coat of arms designed for a quite different purpose and this has been appropriated for the new ensign. The main feature of the flag is the old union jack, with a combination of the crosses of St. Andrew, St. George and St. Patrick on which the new coat of arms is imposed.

**"Intuition" Tells Her?**  
"My dear," remarked Jinks, who had just finished reading a book or "The Wonders of Nature," "this really is a remarkable work. Nature is marvelous! Stupendous! When I read a book like this it makes me think how puerile, how insignificant is man."  
"Huh!" sniffed his better-half. "A woman doesn't have to wade through 400 pages to discover that!"—Pittsburgh Chronicle-Telegraph.

**Love Me, Love My Dog**  
"Hello, Jack, what are you carrying?"  
"Chocolates and meat—going to see the girl."  
"Great Scott! Do you have to supply the family with meat already?"  
"Oh, no. The candy is for the girl and the meat is for the dog. I have to square both."—Boston Transcript

**MOTHER OF 5 SPELLS**  
15,000 WORDS WITHOUT ERROR, IS CITY CHAMPION

In a spelling bee conducted at Cincinnati, O., Mrs. A. Wehrt, who has five children, spelled 15,000 words without making a mistake. Thousands of teachers, students, fathers and mothers were competitors but Mrs. Wehrt's record won for her the city championship. "If they have a spelling bee at the Olympic meet," she said, "I'm a candidate to represent the United States."

## Christian Name John Easily Most Popular

A compilation of the Christian names of army officers contained in the official Army Register for 1924 shows the relative frequency of occurrence of these names. The register gives the names of 13,751 officers—11,354 on the active list and 2,397 on the retired list. As the Christian name is not given in the case of sixty-four names the list shows the record for 13,687 officers.

The first five names—John, William, Charles, James and George—number nearly 26 per cent of the entire list, while the list shows that about one-half of the entire army is made up of officers with the first twenty names, says the Army and Navy Journal. Some 1,506 different names are given in the list, of which, in the case of 906, more than 60 per cent appear only once.

This compilation was made by Simon Newton of the United States engineer office, Detroit, Mich., to whom the Army and Navy Journal is indebted for his carefully prepared article, which shows the following as most frequent:

John 920, William 907, Charles 633, James 550, George 540, Robert 374, Thomas 306, Frank 284, Henry 275, Joseph 268, Edward 250, Harry 240, Walter 180, Arthur 181, Paul 150, Frederick 145, Harold 144, Richard 139, Francis 137, Albert 130, Samuel 121, Edwin 117, Ralph 104, Clarence 90, Herbert 97, Louis 96, David 95, Fred 80, Howard, Raymond 70 each, Alfred 75, Alexander, Benjamin 73 each, Ernest 71, Donald 68, Daniel, Hugh 67 each, Eugene 66, Carl, Roy 65 each, Philip 64, Lewis 61, Edgar, Lawrence 57 each, Oscar 55, Earl 48, Theodore 43, Edmund 39, Clyde, Lloyd, Russell 38 each, Guy, Oliver 37 each, Claude, Clifford, Kenneth 36 each, Leonard 34, Elmer, Horace, Jesse 33 each, Allen, Harvey, Ray 32 each, Chester, Leslie 31 each, Andrew, Lester 30 each, Peter, Stanley 29 each, Norman, Willis 28 each, Michael 27, Jacob 26, Bernard, Leon, Stephen, Wallace 25 each, Douglas, Franklin, Frederic, Herman, Patrick, Percy 24 each, Everett, Ira, Leo, Martin, Sidney 23 each, Floyd, Gordon, Otto, Victor 22 each, Lee 12, Homer, Maurice, Wilbur 20 each.

## Women Who Are Heads of Large Enterprises

Man bequeaths his business to a girl secretary because "she is the only one who knows how to run it properly."

Business women are no rare things these days, the Philadelphia Inquirer observes. A conspicuous example of one is Mrs. Mountz who was a delegate to the 1924 Republican national convention.

Mrs. Mountz has successfully managed an extensive coal business.

For years the great steel mill at Coatesville was operated by a woman whose energy and enterprise equaled that of any man.

A young woman is a leading factor in one of Philadelphia's largest milk companies.

One of the largest orchardists in Montgomery county is a woman.

After William Weightman died his daughter, now Mrs. Penfield, carried on the business and was capable of managing big as well as small details.

What was for many years Philadelphia's largest drug store was long managed by a granddaughter of Christopher Marshall, its founder.

Women were in successful control here of a large hospital and a medical college.

## Rome Also Knew Strikes

Officials of the American Federation of Labor, among whom are some students of the classics, have discovered that ancient Rome was no more immune to strikes than modern New York or Chicago. They have discovered that Livy and Ovid described a strike of musicians in Rome.

The strikers, who belonged to the guild of musicians (tibicines) refused to work because the banquet which was traditionally accorded them every year at the expense of the state was omitted in 311 B. C.

The musicians all left Rome and went to Tibur to await overtures from the state. The situation created by the walkout was very embarrassing to the authorities, for the sacrifices could not be carried out without music. The men were finally lured back by strategy. They were served freely with wine and taken to Rome "dead to the world." The men won their strike, however, for the authorities decided that a privilege so long accorded had become a right and the banquet was restored.

## Rebuke Courteous

Eddie Bremer, manager of the Majestic theater, likes to tell this one: Some years ago, when Eddie was treasurer of the old Majestic, he was sitting in the back of the house watching the vaudeville. A tired business man, stopping one of the fair ushers demanded in a hard-bodded tone: "Where in h—l is the men's smoking room?"

"Go right down the stairs," she replied sweetly, "and turn to your left. You will see a sign that reads 'Gentlemen.' Don't pay any attention to the sign. Go right in."—Houston Post.

## And What If He Phones?

Ethel—So Arthur proposed last night?  
Maude—Yes.  
"And did you accept him?"  
"I was so awfully excited I don't know whether I did or not. If he comes tonight I did; if he doesn't, I didn't."—London Answers.

## "Blue Stockings"

The term "blue stocking" has long been applied to learned or literary women. According to an eminent student the term originated in the time of the eminent Doctor Johnson, who ladies of literary tastes held weekly assemblages for meeting literary men. A Mr. Stillingfleet was an eminent member, who excelled in conversation. His dress was peculiar, and he wore blue stockings. When he was greatly missed it was common to say, "We can do nothing without the blue stockings." By degrees the name became applied to the ladies who attended, and the assemblages received the name of Blue Stocking clubs. Hence, literary ladies are frequently called "blue stockings."

## Don't Want Innovations

Rothenburg on the Tauber, an ancient, medieval, walled city of which all Bavaria is proud, is falling victim to the march of industrial progress. A hundred years before America was discovered this town was a teeming village, despite its walls, moats and city gates, but in more modern times it has been a haven for tourists. Of recent months, however, captains of industry have sought permits to erect vehicle factories and it is against this move that many of the citizens are now protesting.

## IRENE CASTLE SAILS FOR EUROPE

"Mrs. Irene Castle McLaughlin, famous as a dancer and fashion creator sailed for Europe to get material for her new fashions, on Wednesday June 18th. Mrs. McLaughlin says she is through with the stage forever, and she is now going over to secure original ideas and models for the Corticelli Silk Company. The above photo shows her wearing a Corticelli Tangerine Satin dress, figured in black embroidery and trimmed with beaver fur. Slippers and Corticelli hosiery are taw color."

## The Six-year Stage Success, Now a Great Motion Picture

## MANY "DAKOTANS" IN U. S. OFFICES

Julia Sethney was engaged by the U. S. Veterans' Bureau the very day she finished her training at Dakota Business College, Fargo, making five "Dakotans" employed by this office and 17 by other local Government offices. "Dakotans" serve the U. S. from coast to coast, Margaret Glasgow recently accepted a position in the Internal Revenue Office, Minneapolis.

"Dakotans" are trained to succeed—226 are bank officers. Watch results each week and "Follow the Success!" First Fall Term begins Aug. 4th. Write F. L. Watkins, Pres., 806 Front St., Fargo.

## Free Examination

Monday, Tuesday and Wednesday only

## Dr. Doran Specialist

Dr. Doran will be at his St. Cloud office Monday, Tuesday and Wednesday of each week, and his many satisfied patients in this vicinity speak for his wonderful results.

They come many miles to see him at his Office in the Grand Central Hotel, St. Cloud.

## DOES NOT USE THE KNIFE

Dr. Doran is a regular graduate in medicine and surgery and is licensed by the State of Minnesota.

He does not operate for chronic appendicitis, gall stones, ulcers of the stomach, goitre, tonsils or adenoids.

He has to his credit wonderful results in diseases of the stomach, liver, bowels, blood, skin, nerves, heart, kidneys, bladder, bed wetting, catarrhal conditions, weak lungs, rheumatism, sciatica, leg ulcers and diseases peculiar to men and women and rectal ailments.

If you have been ailing for any length of time and do not get any better, do not fail to call, as improper measures, rather than disease are very often the cause of your long standing trouble.

Married ladies must come with their husbands, and children with their parents.

Office hours at Grand Central Hotel, St. Cloud, from 10 a. m. to 4 p. m. Evenings by appointment only. No office hours on Thursdays, Fridays and Saturdays.

Services every evening at 8 P. M., excepting Mondays.  
Two services Sunday, 3 and 8 P. M.

Miss Elizabeth MacLaughlin, the Irish evangelist from Ireland, is the speaker. She has been holding revivals where hundreds were saved.  
Special musicians and singers.  
We invite you.

† † †  
**First Methodist Church**  
Services for the week commencing July 20.

The morning services will be at 10:30 o'clock, the pastor, E. A. Cooke, preaching the sermon. There will be special music.

At 11:15 the church school will hold its regular session.  
In the evening Miss Grace Downs, pastor of our Methodist church at Pillager and for five years missionary in South America, will speak and give the story of her experience in the mission field. Miss Downs is a bright young woman and will have a story full of interest and we bespeak for her a large attendance.  
Services will be held on Thursday evening at 8 o'clock. The public and especially strangers are given a cordial invitation to this service.

**Canada Has Own Flag**  
Display of Canada's new "national flag" on formal occasions and officially has been made. The old flag for Canadian merchant ships was used for 33 years, but two years ago King George authorized the use of a new Canadian coat of arms designed for a quite different purpose and this has been appropriated for the new ensign. The main feature of the flag is the old union jack, with a combination of the crosses of St. Andrew, St. George and St. Patrick on which the new coat of arms is imposed.

**"Intuition" Tells Her?**  
"My dear," remarked Jinks, who had just finished reading a book or "The Wonders of Nature," "this really is a remarkable work. Nature is marvelous! Stupendous! When I read a book like this it makes me think how puerile, how insignificant is man."  
"Huh!" sniffed his better-half. "A woman doesn't have to wade through 400 pages to discover that!"—Pittsburgh Chronicle-Telegraph.

**Love Me, Love My Dog**  
"Hello, Jack, what are you carrying?"  
"Chocolates and meat—going to see the girl."  
"Great Scott! Do you have to supply the family with meat already?"  
"Oh, no. The candy is for the girl and the meat is for the dog. I have to square both."—Boston Transcript

**MOTHER OF 5 SPELLS**  
15,000 WORDS WITHOUT ERROR, IS CITY CHAMPION

In a spelling bee conducted at Cincinnati, O., Mrs. A. Wehrt, who has five children, spelled 15,000 words without making a mistake. Thousands of teachers, students, fathers and mothers were competitors but Mrs. Wehrt's record won for her the city championship. "If they have a spelling bee at the Olympic meet," she said, "I'm a candidate to represent the United States."

## Christian Name John Easily Most Popular

A compilation of the Christian names of army officers contained in the official Army Register for 1924 shows the relative frequency of occurrence of these names. The register gives the names of 13,751 officers—11,354 on the active list and 2,397 on the retired list. As the Christian name is not given in the case of sixty-four names the list shows the record for 13,687 officers.

The first five names—John, William, Charles, James and George—number nearly 26 per cent of the entire list, while the list shows that about one-half of the entire army is made up of officers with the first twenty names, says the Army and Navy Journal. Some 1,596 different names are given in the list, of which, in the case of 966, more than 60 per cent appear only once.

This compilation was made by Simon Newton of the United States engineer office, Detroit, Mich., to whom the Army and Navy Journal is indebted for his carefully prepared article, which shows the following as most frequent:

John 920, William 907, Charles 633, James 550, George 540, Robert 374, Thomas 306, Frank 284, Henry 275, Joseph 268, Edward 259, Harry 249, Walter 189, Arthur 181, Paul 150, Frederick 145, Harold 144, Richard 139, Francis 137, Albert 136, Samuel 121, Edwin 117, Ralph 104, Clarence 99, Herbert 97, Louis 96, David 95, Fred 80, Howard, Raymond 76 each, Alfred 75, Alexander, Benjamin 73 each, Ernest 71, Donald 68, Daniel, Hugh 67 each, Eugene 66, Carl, Roy 65 each, Philip 64, Lewis 61, Edgar, Lawrence 57 each, Oscar 55, Earl 48, Theodore 43, Edmund 39, Clyde, Lloyd, Russell 38 each, Guy, Oliver 37 each, Claude, Clifford, Kenneth 36 each, Leonard 34, Elmer, Horace, Jesse 33 each, Allen, Harvey, Ray 32 each, Chester, Leslie 31 each, Andrew, Lester 30 each, Peter, Stanley 29 each, Norman, Willis 28 each, Michael 27, Jacob 26, Bernard, Leon, Stephen, Wallace 25 each, Douglas, Franklin, Frederic, Herman, Patrick, Percy 24 each, Everett, Ira, Leo, Martin, Sidney 23 each, Floyd, Gordon, Otto, Victor 22 each, Lee 12, Homer, Maurice, Wilbur 20 each.

## Women Who Are Heads of Large Enterprises

Man bequeaths his business to a girl secretary because "she is the only one who knows how to run it properly."

Business women are no rare thing these days, the Philadelphia Inquirer observes. A conspicuous example of one is Mrs. Mountz who was a delegate to the 1924 Republican national convention.

Mrs. Mountz has successfully managed an extensive coal business.

For years the great steel mill at Coatesville was operated by a woman whose energy and enterprise equaled that of any man.

A young woman is a leading factor in one of Philadelphia's largest milk companies.

One of the largest orchardists in Montgomery county is a woman.

After William Weightman died his daughter, now Mrs. Penfield, carried on the business and was capable of managing big as well as small details. What was for many years Philadelphia's largest drug store was long managed by a granddaughter of Christopher Marshall, its founder.

Women were in successful control here of a large hospital and a medical college.

## Rome Also Knew Strikes

Officials of the American Federation of Labor, among whom are some students of the classics, have discovered that ancient Rome was no more immune to strikes than modern New York or Chicago. They have discovered that Livy and Ovid described a strike of musicians in Rome.

The strikers, who belonged to the guild of musicians (hibicines) refused to work because the banquet which was traditionally accorded them every year at the expense of the state was omitted in 311 B. C.

The musicians all left Rome and went to Tibur to await overtures from the state. The situation created by the walkout was very embarrassing to the authorities, for the sacrifices could not be carried out without music. The men were finally lured back by strategy. They were served freely with wine and taken to Rome "dead to the world." The men won their strike, however, for the authorities decided that a privilege so long accorded had become a right and the banquet was restored.

## Rebuke Courteous

Eddie Bremer, manager of the Majestic theater, likes to tell this one:

Some years ago, when Eddie was treasurer of the old Majestic, he was sitting in the back of the house watching the vaudeville. A tired business man, stopping one of the fair ushers demanded in a hard-boiled tone: "Where in h—l is the men's smoking room?"

"Go right down the stairs," she replied sweetly, "and turn to your left. You will see a sign that reads 'Gentlemen.' Don't pay any attention to the sign. Go right in."—Houston Post.

## And What If He Phones?

Ethel—So Arthur proposed last night?

Maude—Yes.

"And did you accept him?"

"I was so awfully excited I don't know whether I did or not. If he comes tonight I did; if he doesn't, didn't."—London Answers.

## "Blue Stockings"

The term "blue stocking" has long been applied to learned or literary women. According to an eminent student the term originated in the first of the eminent Doctor Johnson, what ladies of literary tastes held weekly assembles for meeting literary men. A Mr. Stillingfleet was an eminent member, who excelled in conversation. His dress was peculiar, and he wore blue stockings. When he was greatly misused it was common to say, "We can do nothing without the blue stockings." By degrees the name became applied to the ladies who attended, and the assembles received the name of Blue Stocking clubs. Hence, literary ladies are frequently called "blue stockings."

## Don't Want Innovations

Rothenberg on the Tauber, an ancient, medieval, walled city of which all Bavaria is proud, is falling victim to the march of industrial progress. A hundred years before America was discovered this town was a teeming village, despite its walls, moats and city gates, but in more modern times it has been a mecca for tourists. Of recent months, however, captains of industry have sought permits to erect vehicle factories and it is against this move that many of the citizens are now protesting.

## IRENE CASTLE SAILS FOR EUROPE

"Mrs. Irene Castle McLaughlin, famous as a dancer and fashion creator sailed for Europe to get material for her new fashions, on Wednesday June 18th. Mrs. McLaughlin says she is through with the stage forever, and she is now going over to secure original ideas and models for the Corticelli Silk Company. The above photo shows her wearing a Corticelli 'Tangerine' dress, figured in black embroidery and trimmed with beaver fur. Slippers and Corticelli hosiery. Rare lawn color."

## MANY "DAKOTANS" IN U. S. OFFICES

Julia Sethney was engaged by the U. S. Veterans' Bureau the very day she finished her training at Dakota Business College, Fargo, making five "Dakotans" employed by this office and 17 by other local Government offices. "Dakotans" serve the U. S. from coast to coast. Margaret Glasgow recently accepted a position in the Internal Revenue Office, Minneapolis.

"Dakotans" are trained to succeed—226 are bank officers. Watch results each week and "Follow the Success!" First Fall Term begins Aug. 4th. Write F. L. Watkins, Pres., 806 Front St., Fargo.

## Free Examination

Monday, Tuesday  
and Wednesday only

Dr. Doran  
Specialist

Dr. Doran will be at his St. Cloud office Monday, Tuesday and Wednesday of each week, and his many satisfied patients in this vicinity speak for his wonderful results.

They come many miles to see him at his Office in the Grand Central Hotel, St. Cloud.

## DOES NOT USE THE KNIFE

Dr. Doran is a regular graduate in medicine and surgery and is licensed by the State of Minnesota.

He does not operate for chronic appendicitis, gall stones, ulcers of the stomach, goitre, tonsils or adenoids.

He has to his credit wonderful results in diseases of the stomach, liver, bowels, blood, skin, nerves, heart, kidneys, bladder, bed wetting, catarrhal conditions, weak lungs, rheumatism, sciatica, leg ulcers and diseases peculiar to men and women and rectal ailments.

If you have been ailing for any length of time and do not get any better, do not fail to call, as improper measures, rather than disease are very often the cause of your long standing trouble.

Married ladies must come with their husbands, and children with their parents.

Office hours at Grand Central Hotel, St. Cloud, from 10 a. m. to 4 p. m. Evenings by appointment only. No office hours on Thursdays, Fridays and Saturdays.

## THE TOURIST BUSINESS

THE Minneapolis Tribune discusses the tourist business from several new angles. It mentions Canadian experience, and we must say, that in spite of all the commercial benefits accruing to Canada, there was some sentiment in Montreal, as we ascertained on a recent visit there, which was against converting a section of a park for tourist use.

Canadian officials, generally, have a sharp appreciation of the value of tourist business. We saw long lines of cars at every point of entry into Canada, awaiting inspection by custom officers. And, by the way, these lines all stretched from the American side into Canada. We did not notice a single line headed from Canada into the U. S.

Canadian officials estimate that in 1923 tourists, including the traffic carried by the railroads, spent \$136,000,000 in the Dominion, about one-fourth of which is accounted for in British Columbia. Not fewer than 1,600,000 automobiles, carrying an average of four persons, were registered last year as having passed into Canada for recreation purposes. This motor traffic must have come from the United States, and this leads to the equivalent of 85 per cent of the annual return which American investors drew from Canadian securities. In other words, some Americans provide the great bulk of the funds with which Canada pays interest on her loans from other Americans.

Another point the Minneapolis Tribune failed to make is this. Tourists, in addition to the ordinary tourist demands, do a lot of shopping in Canada, attracted by the idea that things are cheap in Canada. Diamonds and woolen goods are heralded as cheap. Otherwise things are much on the same price level as America, but the glamour of the shop windows in Montreal and other large cities, causes many a tourist to make at least \$100 worth of purchases.

Minnesota is spending a large amount of money for the construction of good roads, and if there is anything touring motorists like it is good going on the rural highways. Tourists are bringing into Minnesota more money than is required to carry out the state's road program, and largely for the reason that the roads grow more and more alluring for travel.

The tourist business in Minnesota depends for its growth on the degree of satisfaction felt from year to year by the travelers. Good roads are only one of the indispensables. Entering in as vital factors are the tourist camps, food and quarters in resorts, sanitary conditions, and the general treatment accorded visiting motorists by legal authorities and private citizens. The summer tourist season is now on. With the closing of school terms and the release of children from classroom work in this and other states, the traffic will rapidly increase from this time until September. This is the time for Minnesotans who cater to out-of-doors pleasure-seekers to set their standards of service and hospitality for the season. Advertising attracts visitors to the state, but there remains the very essential duty of so dealing with visitors that they will wish to come again. For this reason the standards referred to should be high as a matter of good business policy if for no more creditable reason.

## NICK CARTER DEAD

JOHN R. CORYELL, who ground out the Nick Carter stories and first evolved this elusive hero of the world of dime novel fiction, is dead. Coryell began his writing career as a reporter on a Frisco newspaper. Maybe the reporting game stirred his bent for fiction. He made a fortune out of old Nick Carter.

Coryell started Carter on his world tour and then the late Frederick Van Rensselaer Day kept on with the task, following suggestions made by Coryell.

When time hung heavy on Coryell's hands, he ground out some of the novels which bear Bertha M. Clay's imprint. Thus, in a way, Coryell contributed to the edification (we use this word advisedly) of millions of boys and girls.

One thing, however, may be said of the Nick Carter series, and that is that virtue was always rewarded at the finish of the tale and the villain got all that was coming to him.

As to the Bertha M. Clay heart-burning tales of love, we read a few, but they never carried the appeal that old Nick poured out on every page.

## SHOWED NO EMOTION

ON a recent visit east we met a charming Kentuckian, a girl who had seen Black Gold win the \$50,000 Kentucky derby. The horse's owner is a widow who was left the colt as part of the estate and who observed her husband's last injunction to give the horse a chance on big time.

In her soft southern accent, the girl recounted how Black Gold's owner acted as stoically as the Indian trainer of the horse. Not a wave of emotion was visible. She did not even smile as she accepted the prize from the judges. She did not cheer, she did not hug the horse's neck, she did not shake the hand of the jockey.

"It really pained us," said the fair Kentuckian, "that she did not realize the victory she had won with her colt. Nevah in ma life have I seen such an unemotional woman."

## BEING PRESIDENT IS A HARD JOB

THIS thing of being President of the United States is a hard job. It's a regular man-killer. We lost Wilson when he sacrificed himself on the altar of giving publicity to his League of Nations ideal. We lost Harding when he started his coast-to-coast speech making tour.

And now Coolidge, about to enter a most strenuous campaign, is wise in consulting physicians and surgeons for an examination. They gave him the "once over" and pronounced him physically fit. Coolidge knows how to conserve energy and no situation has ever found him excited or nervous.

THE farmer in the Brainerd Lake Region has just cause to smile when he surveys his ripening crops. Good prices await all the marketing of his produce. There's nothing like good prices when it comes to getting a tonic to relieve that depressed feeling.

BRAINERD'S Tourist Camp continues to gain the plaudits of the army of tourists. It is being recognized as the night control in drives northward from the Twin Cities.

## PLAYGROUND SITES ARE OFFERED 50 CITIES

Harmon Foundation of New York Will Donate Fund for Each Up to \$2,000.

New York.—Growing towns, small cities and suburban centers will be given an opportunity to obtain playgrounds free of cost through proposal of the Harmon Foundation of New York to give playgrounds this year to 50 communities of this kind in the United States.

Although the time for filing applications will expire July 1, and a large number of applications have been received from communities throughout the country, Indiana towns have failed to take advantage of the offer, according to officers of the foundation.

Under the terms of the offer, towns, small cities and suburban sections of larger cities with 3,000 or more residents and which show a growth of at least 30 per cent since 1900, are eligible in the final consideration for selection of the 50 sites for playgrounds. Applications will be investigated and the 50 playgrounds given to the same number of applying communities which are found to need them most.

Other conditions are a \$2,000 maximum for each playground site, but this amount may be added to by the community if it is desired to purchase a better site than that obtainable for that amount; \$3,000 is the maximum price to be paid per acre; an appraisal of the actual value of the land by two disinterested citizens who know land values in the community must accompany each application; assurance that an option on the land proposed for purchase can be obtained for a sufficient period to consummate negotiations must accompany each application; title of property must be examined and legal opinion provided; all applications must be made in writing on regular blanks provided by the division of playgrounds, Harmon foundation, 140 Nassau street, New York, and all playgrounds obtained through the foundation must be known permanently as Harmon field, and all applications must be indorsed by the mayor or president of the board of education.

The Harmon foundation was organized last year through the desires of William E. Harmon, head of a real estate company of New York, to provide proper places of play for children because he had lacked these advantages when a child. A number of playgrounds have already been given to small growing towns.

## Builds One-Man Dirigible an Amateur Can Operate

Matt Corbett has invented a one-man dirigible, which even an amateur can safely operate. The pony balloon will probably be used to fight the terrible "gipsy moth," which has done such great damage throughout the country. The cost of operating the machine is small and the army air service thinks so much of it that it has it fully protected. The inventor predicts that it will be to the air what the Ford car is to the land—in other words, a great boon.

## Less Than 1 Child in 4 Has Perfect Health

Washington.—More than 75 per cent of American school children have physical defects, Dr. Herman J. Norton, director of health education of the Rochester (N. Y.) schools, told a conference of home economics supervisors at the Interior department.

He quoted a recent survey of the 22,000,000 children and declared 15,000,000 had bad teeth; 2,000,000 to 4,000,000 fallen arches, defective spines or joints; 3,000,000 to 5,000,000 malnutrition; 5,000,000 poor eyesight; 1,000,000 more or less deaf; 1,000,000 had had or did have tuberculosis; 25,000 had heart trouble, and 200,000 were mentally defective.

## Can't Lose Pigeons

Kansas City, Kan.—Two pigeons which he had boarded for about a year were no longer desired by Frank Peterson, so he motored them five miles into the country and turned them loose. When Peterson arrived home the pigeons were there clamoring for food.

## OTHER PEOPLES' OPINIONS

## A COMMUNITY INTEREST

When the people of Brainerd are all working for a Bigger and Better Brainerd, our City Council would close an institution such as the Brainerd Commercial College by taking the present quarters from them. They would also take the quarters now occupied by the State Highway Department.

Both of the above organizations are an asset to the people of Brainerd for they help in the tax reduction question. The proposed action of the Council would take a \$900.00 revenue from the city annually.

Our city officers seemed to have had sufficient room before and need of more room now does not seem apparent. The Court House a later designed building does not provide for any larger quarters for the county officers.

The Brainerd Commercial College has more than 600 graduates and are the people of Brainerd going to allow an institution of this kind to be forced to close. During the past winter more than 40 students attended the College. If the school must be closed the people of Brainerd will lose this revenue which is equivalent to an institution employing 40 people or more.

The biggest consideration is the fact that this is the only educational institution in the county outside of public schools. It has been the means of helping hundreds to improve themselves for better positions and better service to the community. All educational institutions of this kind should be encouraged and not discouraged.

Let every one who is interested in a Bigger and Better Brainerd see that our Commercial College is maintained here in our own City Hall. A Former Student.

## Some Time Ago

He—Yes, I come of old-fashioned parents; my mother had only one husband.—Wisconsin Octopus.

## Slow to Exercise Veto

Washington exercised his power of veto only twice during his two terms in the Presidency.

## Tied Up for Life

The man of the house in name only mopped the bald spot in front where his forehead should have been and gazed with intense hatred at his wife a few steps ahead. It seemed evident that he was about to divulge a confidence, and the hotel clerk leaned toward him with a friendly, expectant glance.

The grumbling one came nearer to the clerk and said: "When I got married her folks told her not to do it and my folks told me not to do it. Said it was a misalliance and we wouldn't stay together a week. Misalliance nothing! I've been married twenty years and I can't even get out for one night!"—Prize story in Judge

As to the Bertha M. Clay heart-burning tales of love, we read a few, but they never carried the appeal that old Nick poured out on every page.

## SHOWED NO EMOTION

ON a recent visit east we met a charming Kentuckian, a girl who had seen Black Gold win the \$50,000 Kentucky derby. The horse's owner is a widow who was left the colt as part of the estate and who observed her husband's last injunction to give the horse a chance on big time.

In her soft southern accent, the girl recounted how Black Gold's owner acted as stoically as the Indian trainer of the horse. Not a wave of emotion was visible. She did not even smile as she accepted the prize from the judges. She did not cheer, she did not hug the horse's neck, she did not shake the hand of the jockey.

"It really pained us," said the fair Kentuckian, "that she did not realize the victory she had won with her colt. Nevah in ma life have I seen such an unemotional woman."

## BEING PRESIDENT IS A HARD JOB

THIS thing of being President of the United States is a hard job. It's a regular man-killer. We lost Wilson when he sacrificed himself on the altar of giving publicity to his League of Nations ideal. We lost Harding when he started his coast-to-coast speech making tour.

And now Coolidge, about to enter a most strenuous campaign, is wise in consulting physicians and surgeons for an examination. They gave him the "once over" and pronounced him physically fit. Coolidge knows how to conserve energy and no situation has ever found him excited or nervous.

THE farmer in the Brainerd Lake Region has just cause to smile when he surveys his ripening crops. Good prices await all the marketing of his produce. There's nothing like good prices when it comes to getting a tonic to relieve that depressed feeling.

BRAINERD'S Tourist Camp continues to gain the plaudits of the army of tourists. It is being recognized as the night control in drives northward from the Twin Cities.

## PLAYGROUND SITES ARE OFFERED 50 CITIES

Harmon Foundation of New York Will Donate Fund for Each Up to \$2,000.

New York.—Growing towns, small cities and suburban centers will be given an opportunity to obtain playgrounds free of cost through proposal of the Harmon Foundation of New York to give playgrounds this year to 50 communities of this kind in the United States.

Although the time for filing applications will expire July 1, and a large number of applications have been received from communities throughout the country, Indiana towns have failed to take advantage of the offer, according to officers of the foundation.

Under the terms of the offer, towns, small cities and suburban sections of larger cities with 3,000 or more residents and which show a growth of at least 30 per cent since 1900, are eligible in the final consideration for selection of the 50 sites for playgrounds. Applications will be investigated and the 50 playgrounds given to the same number of applying communities which are found to need them most.

Other conditions are a \$2,000 maximum for each playground site, but this amount may be added to by the community if it is desired to purchase a better site than that obtainable for that amount; \$1,000 is the maximum price to be paid per acre; an appraisal of the actual value of the land by two disinterested citizens who know land values in the community must accompany each application; assurance that an option on the land proposed for purchase can be obtained for a sufficient period to consummate negotiations must accompany each application; title of property must be examined and legal opinion provided; all applications must be made in writing on regular blanks provided by the division of playgrounds, Harmon foundation, 140 Nassau street, New York, and all playgrounds obtained through the foundation must be known permanently as Harmon field, and all applications must be indorsed by the mayor or president of the board of education.

The Harmon foundation was organized last year through the desires of William E. Harmon, head of a real estate company of New York, to provide proper places of play for children because he had lacked these advantages when a child. A number of playgrounds have already been given to small growing towns.

## Builds One-Man Dirigible an Amateur Can Operate

Matt Corbett has invented a one-man dirigible, which even an amateur can safely operate. The pony balloon will probably be used to fight the terrible "gipsy moth," which has done such great damage throughout the country. The cost of operating the machine is small and the army air service thinks so much of it that it has it fully protected. The inventor predicts that it will be the air what the Ford car is to the land—in other words, a great boon.

## Less Than 1 Child in 4 Has Perfect Health

Washington.—More than 75 per cent of American school children have physical defects, Dr. Herman J. Norton, director of health education of the Rochester (N. Y.) schools, told a conference of home economics supervisors at the Interior department.

He quoted a recent survey of the 22,000,000 children and declared 15,000,000 had bad teeth; 2,000,000 to 4,000,000 fallen arches, defective spines or joints; 3,000,000 to 5,000,000 malnutrition; 5,000,000 poor eyesight; 1,000,000 more or less deaf; 1,000,000 had had or did have tuberculosis; 25,000 had heart trouble, and 200,000 were mentally defective.

## Can't Lose Pigeons

Kansas City, Kan.—Two pigeons which he had boarded for about a year were no longer desired by Frank Peterson, so he motored them five miles into the country and turned them loose. When Peterson arrived home the pigeons were there clamoring for food.

## OTHER PEOPLE'S OPINIONS

## A COMMUNITY INTEREST

When the people of Brainerd are all working for a Bigger and Better Brainerd, our City Council would close an institution such as the Brainerd Commercial College by taking the present quarters from them. They would also take the quarters now occupied by the State Highway Department.

Both of the above organizations are an asset to the people of Brainerd for they help in the tax reduction question. The proposed action of the Council would take a \$900.00 revenue from the city annually.

Our city officers seemed to have had sufficient room before and need of more room now does not seem apparent. The Court House a later designed building does not provide for any larger quarters for the county officers.

The Brainerd Commercial College has more than 600 graduates and are the people of Brainerd going to allow an institution of this kind to be forced to close. During the past winter more than 40 students attended the College. If the school must be closed the people of Brainerd will lose this revenue which is equivalent to an institution employing 40 people or more.

The biggest consideration is the fact that this is the only educational institution in the county outside of public schools. It has been the means of helping hundreds to improve themselves for better positions and better service to the community.

All educational institutions of this kind should be encouraged and not discouraged. Let every one who is interested in a Bigger and Better Brainerd, see that our Commercial College is maintained here in our own City Hall. A Former Student.

## WIN OLYMPIC WOMEN'S DOUBLES TENNIS TITLE TODAY

(By United Press)  
Paris, July 19.—Helen Wills and Miss Wightman won the Olympic women's doubles tennis title today, defeating Katherine McKane and Miss Covell, England, 7-5 and 8-6 in the finals.

The victory of the Americans was accomplished under difficulties, a wind sweeping across over the courts, hampering the play. The English team fought to the bitter end and finally succumbed to the superior playing of the Americans, especially Miss Wills, who was all over the court.

Miss Wills and Miss Wightman achieved the first of the Olympic championships to be determined. Four thousand spectators saw the match.

## SPORT NOTES RIGHT OFF THE BAT

After twenty years of ball playing, Ty Cobb says he has had enough as a regular and means to retire to the bench as manager. This, of course, is all based on Ty's getting a man to fill his shoes.

Young Weismuller, in spite of heart trouble last year, continues to break swimming records. The scare of last year caused him to be examined by surgeons and physicians who prescribed a regular course for him which cured the heart affection and retained the great athlete in the swimming world.

Captain William H. Fawcett and his victorious teammates, who swept all before them in the Olympic trap-shooting events, are expected to have set sail for America. The captain will soon be back at Breezy Point Lodge, which, by the way holds more comfort and pleasure than any Old World chateau or hotel.

Many of the Elks in Boston bought, you can't quit the gentle art of Japanese back-scratchers. Once us-scratching your back. European royalty is said to have started the fad.

Frisco, right alongside one of the biggest oceans, has 18 swimming tanks.

Windom's old golf course is clogged with cattle and saying "fore" doesn't cause bosste to disperse. A new site is now being sought.

Golf etiquette was preserved at the Chevy Chase Country Club in Washington, D. C., when Senator Robertson was reprimanded.

## AMERICA'S OLYMPIC ATHLETES AGAIN SCORING HEAVILY

(By United Press)  
Stamford Bridge, Eng., July 19.—By 11 points to 3 America's Olympic athletes defeated the British stars in the international track and field meet here today.

The British won the mile and 2-mile relays and the three mile team race, but all other events went to the Americans.

America's Olympic athletes won 6 out of the first eight events in team competition against the pick of the British amateurs in track and field sports here today.

The Americans won the 400-meters relay, the four-mile relay, the 480-yard hurdles relay, the hammer throw, the high jump and the shot put. Aggregate performances counted in field events.

The British relay teams won the mile and two-mile events. The steeplechase was won by the United States in 8:13 3-5.

## Sarcastic Comeback by Owner Charles Comiskey

Joe Cantillon, while umpiring in the American league, incurred the wrath of Charles Comiskey, because of certain decisions against the White Sox. Some time afterwards Cantillon appeared at the gate and asked the turnstile keeper to pass in two of his friends.

"I'm sorry, but I can't do it," was the answer. "Mr. Comiskey has given strict orders that no one is to be admitted except on written passes. But I'll send a note up to Mr. Comiskey and ask him to send down two passes."

A few minutes later a reply came back from Comiskey. The gatekeeper instead of keeping it to himself, passed it along to the umpire. It read:

"If there are two men in Chicago brave enough to pass as Joe Cantillon's friends, pass 'em in—and give 'em box seats."

## Statue of Henry Gassaway Davis, Nominated for Vice President at 81, for Charleston, W. Va

The late Henry Gassaway Davis began life as a railroad brakeman. He amassed a fortune in the lumber business and, becoming prominent in politics in West Virginia, was elected to the United States Senate. At the age of eighty-one he was nominated for vice president of the United States but was defeated. A statue of Davis executed by Louis St. Lanne is to be presented to the city of Charleston. The plaster cast of the statue has just been completed in New York City.

The Pacific ocean covers 68,000,000 square miles. To put away its contents it would be necessary to fill a tank one mile long, one mile wide and one mile deep every day for 440 years.

## IF KIDNEYS BOTHER TRY DOSE OF SALTS

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Too much rich food creates acids which clog the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood. Then you get sick. Rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage, or attended by a sensation of scalding, begin to drink soft water in quantities; also get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in the system so they no longer cause irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive and can not injure; makes a delightful effervescent lithia-water drink, which everyone to take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications. By all means have your physician examine your kidneys at least twice a year.

THE BRAINERD DAILY DISPATCH

# ROADS IN COUNTRY IN GOOD CONDITION

For Convenience of Motorists County Highway Engineer Murphy's Report Given in Full

## NO. 1 NOW OPEN FOR TRAFFIC

Connects With New Highway Through Morrison County to Belle Prairie and Little Falls

County Highway Engineer Walter M. Murphy, in his weekly report on the condition of highways under his supervision, states that roads throughout the county generally are in very good condition.

For the convenience of Sunday motorists, Mr. Murphy's report is given herewith:

State road No. 1. (13th street to Morrison county line.) This road is in excellent condition throughout its entire length, and connects with the new highway through Morrison county to Belle Prairie and Little Falls. The road was opened to traffic on Wednesday, and will soon be officially opened to the public as a detour for Trunk highway No. 27. Highway markers are being placed preparatory to taking over the road by the state.

State road No. 2. (Dewey highway.) This road, though narrow, is in fair condition and offers a connecting link, through the southern tier of townships in the county, between Trunk highway No. 27 and Trunk highway No. 18, at Mille Lacs lake.

State road No. 3. (Merrifield, Cross lake and Emily.) Brainerd to Merrifield, very good. This is new construction completed only last week. Merrifield to Cross lake, excellent, next two miles sand trail, balance of road to Emily, fine.

State road No. 4. (Crosby, Emily and north to Cass county line.) Crosby to river bridge, road is winding, several dangerous curves, fair traveling surface. New construction going on near bridge. Bridge to Fairfield town line, good, to Emily excellent, to Cass county line, very good.

State road No. 5. (Deerwood, Bay lake and south.) This road is very good throughout its entire length, and offers an exceptionally scenic drive between Bay lake and its junction with trunk highway No. 18 at the Workman corner.

White line roads, which are township roads maintained by the county, are in good condition generally. Special attention is called to the "Inland Trail," the white line road from Merrifield north to Pelican lake and Breezy Point lodge. More surfacing has been placed on this road, and dragging has improved the road bed. Over this highway it is only twenty miles to Breezy Point from Brainerd.

With the excellent highway system throughout the county, some very interesting and scenic tours can be planned by Sunday motorists. Several such tours, especially interesting to visitors in this section, are given herewith.

Taking Trunk highway No. 27 out of Brainerd south to State road No. 2, thence over this road through the southern tier of township east to Mille Lacs lake, then north and west over Trunk highway No. 18 to the Workman corner, north at this point over State road No. 5, through Bay lake, Deerwood to Crosby, then take Trunk highway No. 2 to Brainerd. This tour combines farming, and lake country with the mining operations on the range, and is of interest to strangers in the county.

Another tour through the northern section of the county that would be of interest to visitors here, is to take Trunk highway No. 19 out of Brainerd, going north to Pequot, thence east to Breezy Point, on Big Pelican lake, then along the north shores of this lake and east to Emily, then south over State road No. 4 to Crosby, and back to Brainerd over Trunk highway No. 2.

Many other interesting drives can be planned with little difficulty, depending upon whether the motorist desires a long or a short tour.

## BIG WALL-EYED PIKE

9 3/4 Pound Fish, Caught by W. R. Greenwood, Exhibited at Perry Hardware Company

The Perry Hardware Co., is exhibiting in its windows a 9 3/4 pound wall-eyed pike, that was caught by W. R. Greenwood Friday evening in Gilbert lake. The big fish is 28 3/4 inches in length. It was not weighed until Saturday morning, but local fishermen claim that it must have tipped the beam at ten pounds when first taken from the water.

Mr. Greenwood was fishing for crappies, using a No. 4 hook, when

the big pike struck. It took about ten minutes of careful playing to land the fish.

## Tactics Toward Trouble

"Old Mister Trouble," said Uncle Eben "is like a mule. It's safer to look him in de face dan to dodge around behind him."—Washington Star.

## American Trappists

The abbey of Our Lady of Gethsemane, near Bardstown, Ky., which has just celebrated its jubilee, is the only Trappist monastery in the United States.

## AMUSEMENTS

### Here's Picture Like Journey to Paris

If you can't go to Paris the nearest you can approach it is to go to the Lyceum Theatre tonight, where "A Man's Mate" is playing. The Fox star, John Gilbert, gave a pleasing screen performance in a picture that held the attention of the audience throughout. He is ably supported by Renee Adoree.

Gilbert has the part of an artist who meets an Apache girl in a Paris drinking place. Circumstances take them to a quiet farm house in the peaceful countryside. With the girl as a model the artist does a canvas that is later hailed as a masterpiece. Then love sweeps these two rapturously along. There is a rift in the lute, however.

But to tell all the story here would detract from its romantic thrills when you view it on the Lyceum screen. If you like red-blooded love stories, teeming with action, such as Gloria Swanson's "Humming Bird," "A Man's Mate" will give you a satisfactory evening's entertainment.

# GEN. WEYLER'S STAR IN THE ASCENDANCY

OLD GENERAL WAS THE FORMER AUTOCRAT OF CUBA

IS LEADER OF THE OLD-TIME ARMY CHIEFS

(By United Press)

New York, July 19.—General Valerian Weyler, the Spanish governor-general of Cuba, whose regime at Havana was immediately responsible for the Spanish-American war, has become the central figure of an army camarilla in Spain, which wants to overthrow the dictatorship of Primo de Rivera. The former autocrat of Cuba is declared to be the only man who can save Spain from the destructive fascism of the de Rivera absolutists.

The loss of Cuba is not remembered against Weyler. Since the Spanish-American war he has engaged in politics to such advantage that he is now the real political leader of the old-time army chiefs. He is the only man in Spain who dares face Primo de Rivera. Last March Weyler was appointed president of the supreme war council, where he stands, in reality, between de Rivera and the dictator's possible use of the army to overthrow the monarchy.

When Primo de Rivera made himself Spanish dictator last September, he was hailed as a national saviour, largely because he promised to give the Spaniards a victory in Morocco. The conflicts with the Moorish tribesmen have been proceeding for many years without advantage to Spain and at enormous cost. Nothing has come of de Rivera's promise. Large sums of money have continued

to be wasted in inconclusive fighting.

Defied the Dictator  
De Rivera has wanted to imprison Spanish commanders for defeat in battle; but he has been defied successfully by military opinion which has felt such a course would be ruinous to Spain's honor. Spanish officers in Morocco, in addition, have become increasingly defiant of orders from Madrid. Colonel Franco, commander of the Foreign Legion in Morocco, recently refused to follow instructions to abandon his position. General Sanjujo, who was ordered to arrest him, refused to do so, believing Franco to be right.

This contempt of de Rivera's authority as field has been supplemented by increasing restlessness at home. The promised revival of Spanish prosperity has not been brought about. Spanish bankers are uneasy when requested to loan money to the government, because the de Rivera ministry has no legal authority to act for Spain. It is feared that the king would be overthrown and parliament would be reassembled in an antagonistic mood, a bill might be passed outlawing all decrees of the dictatorship, including financial transactions.

King Alfonso is known to have accepted de Rivera as dictator only because he did not care to risk his throne by a revolutionary defiance. The king has never been wholeheartedly in support of the new regime. Rather, his attitude has been that of a ruler holding aloof, but willing to allow any plan to be tried which might help his country out of a critical situation. Several times Alfonso has been urged to give the word for de Rivera's overthrow. But the king wants to keep his throne, whichever party is in power. Therefore, he has backed away from overt condemnation of the dictatorship, taking refuge in the fact that he is a constitutional monarch.

## Faith in Weyler

Alfonso has personal faith in General Weyler, and the aged commander is noted for his loyalty to the royal family. Nevertheless, if Alfonso were to order General Weyler to arrest de Rivera, and assume the premiership, the nation might rise against a constitutional king who had himself assumed dictatorial powers. Therefore, Alfonso must wait for a spontaneous outbreak of public feeling against the de Rivera government.

General Weyler, who is 85 years of age is too old to take the field in person in the event of civil war. Furthermore, he wants to save Spain from internal strife and is biding his time. Many youthful army officers have urged him to overthrow de Rivera on his own authority. But this is apparently far from the old man's thoughts. His army reorganization plans have been opposed by de Rivera, and Weyler is playing a waiting game of showing the dictator up as an incompetent, hoping to compel his voluntary retirement. If, after repeated urgings to resign peacefully, de Rivera still refuses to go, then may come the moment for decisive action.

## Mice Evicted by Notes

In the days of ancient Greece the farmers were accustomed to driving away mice by writing them a message and sticking it on a stone in the infested field.

Paramount Picture "The Confidence Man."

## Meighan Outpoints Dempsey

Word came back with the Meighan Company from Florida where Tom made exterior scenes for his newest Paramount picture, "The Confidence Man," showing at the New Park tonight and Sunday, that the popular screen star outpointed Jack Dempsey, heavyweight champion of the world, for popularity honors.

When Mr. Meighan's train stopped

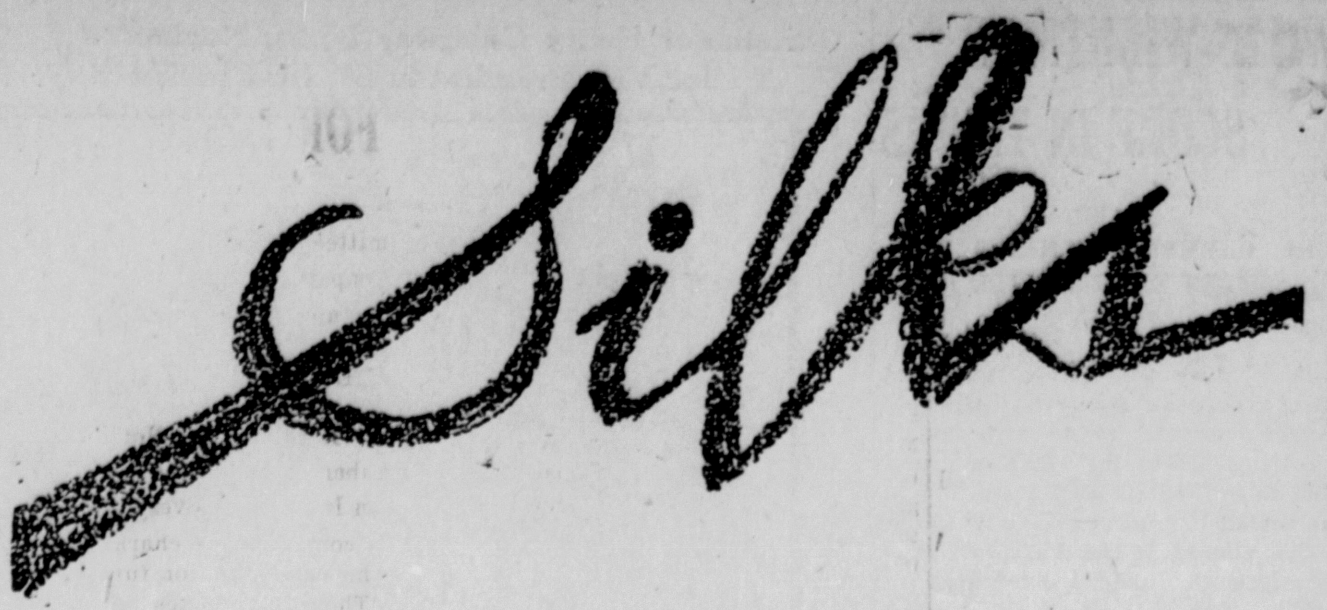

in Jacksonville on the way to Palatka, where the scenes were taken for the picture, he was met by the mayor of the city, a reception committee of leading citizens and a crowd that numbered into the thousands.

The Jacksonville "Times Union" commented as follows on the reception:

"A large and admiring crowd greeted Jack Dempsey, world's heavy weight champion, when he landed in Jacksonville but that gang was not

one-two-three with the mob that met Thomas Meighan, famous moving picture actor when he stepped from his train here on his first trip to Florida. If Mr. Meighan had not been accompanied by his wife and under a good sized escort it is hard to tell what would have happened to him."

While on location, Tom made several personal appearances before packed houses and was the guest at any number of supper parties.

# Your yardstick

The story of man's progress is written daily on the printed page—in messages from all corners of the globe. Only history can measure it.

Yet the progress that concerns you most—the better talcums, tooth-brushes, shoes and automobiles that can give you daily satisfaction—you can measure as you read. Advertisements are your local yardsticks. They tell of the new and the best your own dealers carry.

If you read the advertisements, you can buy wares that repay your confidence—wares widely advertised because widely believed in. Moreover, by helping you select the new, economical and best to-day, the advertisements help you save for the new and best to-morrow.

Let the advertisements keep you alert,  
progressive. Let them help you save.

## ROADS IN COUNTRY IN GOOD CONDITION

For Convenience of Motorists County  
Highway Engineer Murphy's  
Report Given in Full

### NO. 1 NOW OPEN FOR TRAFFIC

Connects With New Highway  
Through Morrison County to Belle  
Prairie and Little Falls

County Highway Engineer Walter M. Murphy, in his weekly report on the condition of highways under his supervision, states that roads throughout the county generally are in very good condition.

For the convenience of Sunday motorists, Mr. Murphy's report is given herewith:

State road No. 1. (13th street to Morrison county line.) This road is in excellent condition throughout its entire length, and connects with the new highway through Morrison county to Belle Prairie and Little Falls. The road was opened to traffic on Wednesday, and will soon be officially opened to the public as a detour for Trunk highway No. 27. Highway markers are being placed preparatory to taking over the road by the state.

State road No. 2. (Dewing highway.) This road, though narrow, is in fair condition and offers a connecting link, through the southern tier of townships in the county, between Trunk highway No. 27 and Trunk highway No. 18, at Mille Lacs lake.

State road No. 3. (Merrifield, Cross lake and Emily.) Brainerd to Merrifield, very good. This is new construction completed only last week. Merrifield to Cross lake, excellent, next two miles sand trail, balance of road to Emily, fine.

State road No. 4. (Crosby, Emily and north to Cass county line.) Crosby to river bridge, road is winding, several dangerous curves, fair traveling surface. New construction going on near bridge. Bridge to Fairfield town line, good, to Emily excellent, to Cass county line, very good.

State road No. 5. (Deerwood, Bay lake and south.) This road is very good throughout its entire length, and offers an exceptionally scenic drive between Bay lake and its junction with trunk highway No. 18 at the Workman corner.

White line roads, which are township roads maintained by the county, are in good condition generally. Special attention is called to the "Inland Trail," the white line road from Merrifield north to Pelican lake and Breezy Point lodge. More surfacing has been placed on this road, and dragging has improved the road bed. Over this highway it is only twenty miles to Breezy Point from Brainerd.

With the excellent highway system throughout the county, some very interesting and scenic tours can be planned by Sunday motorists. Several such tours, especially interesting to visitors in this section, are given herewith.

Taking Trunk highway No. 27 out of Brainerd south to State road No. 2, thence over this road through the southern tier of township east to Mille Lacs lake, then north and west over Trunk highway No. 18 to the Workman corner, north at this point over State road No. 5, through Bay lake, Deerwood to Crosby, then take Trunk highway No. 2 to Brainerd. This tour combines farming, and lake country with the mining operations on the range, and is of interest to strangers in the county.

Another tour through the northern section of the county that would be of interest to visitors here, is to take Trunk highway No. 19 out of Brainerd, going north to Pequot, thence east to Breezy Point, on Big Pelican lake, then along the north shores of this lake and east to Emily, then south over State road No. 4 to Crosby, and back to Brainerd over Trunk highway No. 2.

Many other interesting drives can be planned with little difficulty, depending upon whether the motorist desires a long or a short tour.

### BIG WALL-EYED PIKE

9 3/4 Pound Fish, Caught by W. R. Greenwood, Exhibited at Perry Hardware Company

The Perry Hardware Co., is exhibiting in its windows a 9 3/4 pound wall-eyed pike, that was caught by W. R. Greenwood Friday evening in Gilbert lake. The big fish is 28 3/4 inches in length. It was not weighed until Saturday morning, but local fishermen claim that it must have tipped the beam at ten pounds when first taken from the water.

Mr. Greenwood was fishing for crappies, using a No. 4 hook, when

the big pike struck. It took about ten minutes of careful playing to land the fish.

### Tactics Toward Trouble

"Old Mister Trouble," said Uncle Eben "is like a mule. It's safer to look him in the face than to dodge around behind him."—Washington Star.

### American Trappists

The abbey of Our Lady of Gethsemane, near Bardonia, Ky., which has just celebrated its jubilee, is the only Trappist monastery in the United States.

# DISTRICT NO. 4 HAS MANY FIRES

More so Far This Season Than Were Recorded During Whole Fire Season in 1923

## DRY EARLY SPRING CAUSE

At Present There Are 8 or 10 Small Peat Fires Burning, With 2 Gas Engine Pumps Working

There have been more fires in district No. 4, of which Brainerd is a part, so far this season than were reported during the whole fire season of 1923, states Forest Ranger E. H. Rhodes.

Mr. Rhodes attributes this condition to the dry early spring and the retarded growth of vegetation. Owing to the lack of available funds by the Forestry Department with which to combat the fires, there have been several that have spread over large areas before the state rangers and the few volunteer laborers could bring them under control.

Two unoccupied houses, two barns and a granary were destroyed and in several cases rural school buildings and houses were saved only after a hard fight with the flames. A number of tracts of young growth timber were destroyed as well as some merchantable timber, hay and wild game.

Forester Rhodes states that on one meadow of about forty acres which was burned late in the spring, his patrolmen, in going over the ground after the fire, found four prairie chicken nests which contained some thirteen eggs each. The hawks and crows had seemingly declared a day of feasting and were fast gathering in the spoils.

At the present time Mr. Rhodes says that he has some eight or ten small peat fires in his district, on which he has two gas-engine pump outfits working. He expects to have these fires dug and soaked out within the next ten days or two weeks. One who has not worked on a peat fire can hardly realize what a job it is to put out the fire when once it gets well started in a large ditch-dump or even in an over-drained peat meadow where the peat is from six to eight feet deep.

Most of the spring fires in the district, according to Mr. Rhodes, were caused by the careless burning of meadows and slashings by the settlers and land men, but a few were started by the carelessness of some smoker throwing away cigarette stubs.

In cases where causes of fire could be determined and sufficient evidence obtained, the parties were arrested and brought into court. Out of ten such cases taken into court this spring on forest law violations, nine convictions were obtained, and fines amounting to \$233.50 imposed. More rigid enforcement of forest laws by the rangers was urged by the governor and State Forester Conzet at a recent meeting of the forest rangers in Duluth.

Mr. Rhodes states that with the assistance of his patrolmen, some eighty township fire wardens, and with the cooperation of forty-six state or rural mail carriers, twenty state highway patrolmen and some eighty county highway patrolmen in reporting fires as well as the cooperation in fire prevention given by most of the settlers, tourists and sportsmen, he hopes to keep the number of fall fires in his district down to a minimum.

## FISH—NO LICENSE—\$35.00

Game Warden B. L. Waterman arrested two men from Huron, S. D., last week at Lake George for fishing without non-resident licenses. The men gave their names as Dr. Weldner and Dr. Chambers, and each paid a fine and costs of \$17.50. The gentlemen own a piece of land in this country and were under the impression that ownership of land in Minnesota gave non-residents the right to fish in Minnesota without a license. Mr. Waterman explained to them their mistake and they paid the penalty cheerfully.—Park Rapids Enterprise.

## Ruined by Ridicule

One line ruined the whole of a splendid play "Sophonisba" written in 1730 by James Thomson. The line read, "O, Sophonisba, Sophonisba O." It was immediately parodied everywhere, "O Jemmy Thomson, Jemmy Thomson O."

## Pleasure in Giving

Learn to give, and not to take; to drown your own hungry wants in the happiness of lending yourself to fulfill the interests of those nearest and dearest to you.—Henry Scott Holland

## PROMINENT MUSICIAN VISITS CITY TODAY

Louis Apfelbeck, concert manager representing the foremost artists of Minneapolis, was in Brainerd today interviewing clubs and other organizations relative to selecting talent for special concerts this coming season of 1924-1925.

Mr. Apfelbeck is known as possessor of "The Golden Cross of Honor and Merit," member of the Society of Arts and Science, Vienna and Prague, representative of the International Concert and Theatre bureau at Vienna and Prague for the United States and Canada, also of the Allen Pichler International Opera and Concert company of New York for the Northwest. His list of artists includes many high grade artists, a number of them being familiar to Brainerd musicians.

Mr. Apfelbeck's visit here today was more in the nature of acquainting those who might be interested in seeing good talent engaged during the coming concert season in Brainerd.

Mme Bailey-Apfelbeck, American pianist of world-fame, was heard in Brainerd last year.

John Seaman Carns, impersonator and baritone, and head of the dramatic department of the MacPhail School of Music of Minneapolis, also appeared in Brainerd last year.

Mrs. James A. Bliss, distinguished and noted accompanist, is also familiar to Brainerd audiences.

These, with Dr. Victor Nilsson and Gustav Schoettle, lecturers; Harrison Wall Johnson, pianist; Miss Lois Rogers, pianiste; George Klass, distinguished violinist; Goeran O'n Foellinger, eminent Swedish violinist-composer; Elias Breckin, renowned Russian-American violinist; Engelbert Roentgen, famous Dutch cellist and composer and the famous Hadley dancers and St. Mark's choir are among the noted artists under the direction of Mr. Apfelbeck.

## MAKING STATE BLOSSOM SOON

Plans to be Discussed at Meeting to be Held in Chamber of Commerce Tuesday

## MUCH INTEREST BEING SHOWN

Purpose is to Stimulate a Greater Love of Flowers in Brainerd and Vicinity

Every promise is given of a splendid attendance at the meeting to be held at the Chamber of Commerce Tuesday afternoon at 2:30 o'clock when the plans will be discussed for "Making Minnesota Blossom" and particularly this section of it.

There is a greater interest being expressed than even the most hopeful had expected and it is desired that plans may be made for another garden flower show this summer in which gladioli, dahlias and other garden flowers may be exhibited.

The main purpose of the meeting will be to stimulate a greater interest in flower growing that Brainerd and vicinity may have more of the beauty given by flowers which blossom so abundantly here.

A miniature flower show will be held that it may be shown just what Brainerd and vicinity is now doing and it is asked that specimens of what is now blooming in the gardens be brought to the meeting. Vases will be supplied. You are urged to come and bring at least one kind of a flower. This invitation is open to everybody who loves flowers. L. P. Hall will be chairman of the meeting.

## JOINT PICNIC SUNDAY

Scandinavian-American Fraternity of Brainerd to Picnic With Deerwood Members

Bjornstjerne Bjornson Lodge No. 57, Scandinavian-American Fraternity, of Brainerd, will combine with the Deerwood lodge in an all-day picnic on beautiful Serpent lake, a mile west of Deerwood, tomorrow, (Sunday) July 20th.

Brainerd members of the fraternity are asked to meet at the corner of Oak and Tenth streets Sunday morning at nine o'clock, to go together to attend the outing. All members are urged to make a special effort to be present. An excellent picnic is assured.

## TO RAISE FUNDS FOR 10,000 LAKES

Committee in Charge of Handling Campaign Meets at Chamber of Commerce Rooms

## LAKE REGION IMPORTANT

Funds Raised Are Not For The Chamber of Commerce But Solicited in Interest of Every Taxpayer

The committee in charge of handling the campaign for funds for the Ten Thousand Lakes Association, met at the Chamber of Commerce this afternoon, to make plans for the coming drive.

The committee wishes to call the attention of all Brainerd to the importance of the lakes region in the vicinity to the city of Brainerd. The northern lakes, and especially those waters tributary to the city, are one of the most valuable assets to the community, it is pointed out, and the committee, appointed from the Chamber of Commerce, hopes through its drive to solicit funds to advertise these lakes.

The committee wishes it understood that the funds so raised are not for the Chamber of Commerce, but are solicited in the interests of every tax-payer in Crow Wing county, be he a business man or laborer. All have a common interest in the summer tourist who visits this community. For this reason the liberal support of every citizen is solicited.

At the Ten Thousand Lakes Association office in St. Paul nearly every town in Northern Minnesota has a display of plenty of literature advertising the advantage of their respective communities. Brainerd has nothing of this nature in the St. Paul office. The committee hopes to include in this drive enough so that Brainerd may also be advertised to the end that tourists may know that there is a hearty welcome for them in the vicinity, instead of going elsewhere.

It is pointed out by the committee that every time an outsider builds a summer cottage in this community he leaves no small amount of money here. First he must purchase a lot, next he buys the material for building his cottage, third, he buys furnishings, he secures his labor in the community, he buys his groceries from the local merchants and dairy products from nearby farmers, and lastly he pays taxes to this county.

## MAGAZINE WRITERS VISIT MINNESOTA

Three magazine writers of national prominence are making Minnesota their vacation ground this summer, it is announced by the Ten Thousand Lakes of Minnesota Association.

Peter J. Schwab, one of the most prolific outdoor writers in America, is now fishing in the Mississippi river near Winona for small mouth bass, and in the Whitewater river, near there for trout. Mr. Schwab is on the staff of Outers-Recreation, and a writer whose stories and articles are read by hundreds of thousands every month.

He will spend five weeks in Minnesota, visiting the Park Rapids district, Itasca park, Bemidji, the Iron range, Lake Vermilion, the St. Croix, and will take a canoe trip from Ely through the Superior National Forest.

Dr. Claude P. Fordyce, auto-camping editor of Outdoor Life, a member of the staff of Adventure, author of "Campercraft," "Auto Trails and Tours," and a number of other outdoor books, and of many magazine articles, is also coming. "Your Vast Playgrounds," which is running serially in Outers-Recreation, is attracting wide notice. Dr. Fordyce will come to Minnesota on August 4th, for an extended visit and a canoe trip in the Superior Forest, in order to obtain material for a new book.

Ozark Ripley, staff editor of a number of outdoor magazines and one of the best known outdoor writers, will come here later in the summer.

The visits by these writers is the culmination of efforts of the Ten Thousand Lakes of Minnesota Association, in co-operation with various recreation centers of the state, to give widespread publicity to the Minnesota outdoors by inviting and arranging trips for writers. Irwin Cobb was the first writer to visit the state this summer.

## He Had Lost Faith

At dinner a little girl became highly elated at discovering the wishbone of the chicken on her plate. At this her little brother remarked skeptically: "They're stupid things. I've had three wishbones and daddy hasn't got a motor-car yet!"

## SINCLAIR SERVICE STATION OPENING

New Station Gives Attractive Offer to Public on Monday, July 21

## OPERATE HANDSOME STATION

Gasoline, Oils and Greases Will be Handled, Service and Courtesy is Motto

The Sinclair Service Station, located on the northeast corner of Fourth and Laurel streets, will open for business on Monday morning with A. E. Niles as manager. Free motor oil will be given each purchaser of five gallons or more of gasoline.

The station grounds measure 40 by 100 feet and the station is built of tile with a kellestone finish. It is equipped with all material and pumpage for a two-pump station.

High and low test gasoline will be handled, also oils and greases. A grease pit is part of the service. The station is located almost directly opposite of the court house entrance and is on the general street and highway leading to the Tourist camp.

## DISTRICT NO. 4 HAS MANY FIRES

More so Far This Season Than Were Recorded During Whole Fire Season in 1923

### DRY EARLY SPRING CAUSE At Present There Are 8 or 10 Small Peat Fires Burning, With 2 Gas Engine Pumps Working

There have been more fires in district No. 4, of which Brainerd is a part, so far this season than were reported during the whole fire season of 1923, states Forest Ranger E. H. Rhodes.

Mr. Rhodes attributes this condition to the dry early spring and the retarded growth of vegetation. Owing to the lack of available funds by the Forestry Department with which to combat the fires, there have been several that have spread over large areas before the state rangers and the few volunteer laborers could bring them under control.

Two unoccupied houses, two barns and a granary were destroyed and in several cases rural school buildings and houses were saved only after a hard fight with the flames. A number of tracts of young growth timber were destroyed as well as some merchantable timber, hay and wild game.

Forester Rhodes states that on one meadow of about forty acres which was burned late in the spring, his patrolmen, in going over the ground after the fire, found four prairie chicken nests which contained some thirteen eggs each. The hawks and crows had seemingly declared a day of feasting and were fast gathering in the spoils.

At the present time Mr. Rhodes says that he has some eight or ten small peat fires in his district, on which he has two gas-engine pump outfits working. He expects to have these fires dug and soaked out within the next ten days or two weeks. One who has not worked on a peat fire can hardly realize what a job it is to put out the fire when once it gets well started in a large ditch-dump or even in an over-drained peat meadow where the peat is from six to eight feet deep.

Most of the spring fires in the district, according to Mr. Rhodes, were caused by the careless burning of meadows and slashings by the settlers and land men, but a few were started by the carelessness of some smoker throwing away cigarette stubs.

In cases where causes of fire could be determined and sufficient evidence obtained, the parties were arrested and brought into court. Out of ten such cases taken into court this spring on forest law violations, nine convictions were obtained, and fines amounting to \$233.50 imposed. More rigid enforcement of forest laws by the rangers was urged by the governor and State Forester Conzel at a recent meeting of the forest rangers in Duluth.

Mr. Rhodes states that with the assistance of his patrolmen, some eighty township fire wardens, and with the cooperation of forty-six state or rural mail carriers, twenty state highway patrolmen and some eighty county highway patrolmen in reporting fires as well as the cooperation in fire prevention given by most of the settlers, tourists and sportsmen, he hopes to keep the number of fall fires in his district down to a minimum.

### FISH—NO LICENSE—\$35.00

Game Warden B. L. Waterman arrested two men from Huron, S. D., last week at Lake George for fishing without non-resident licenses. The men gave their names as Dr. Weldner and Dr. Chambers, and each paid a fine and costs of \$17.50. The gentlemen own a piece of land in this county and were under the impression that ownership of land in Minnesota gave non-residents the right to fish in Minnesota without a license. Mr. Waterman explained to them their mistake and they paid the penalty cheerfully.—Park Rapids Enterprise.

### Ruined by Ridicule

One line ruined the whole of a splendid play "Sophonisba" written in 1730 by James Thomson. The line read, "O, Sophonisba, Sophonisba O." It was immediately parodied everywhere, "O, Jenny Thomson, Jenny Thomson O."

### Pleasure in Giving

Learn to give, and not to take; to drown your own hungry wants in the happiness of lending yourself to fulfill the interests of those nearest and dearest to you.—Henry Scott Holland

## PROMINENT MUSICIAN VISITS CITY TODAY

Louis Apfelbeck, concert manager representing the foremost artists of Minneapolis, was in Brainerd today interviewing clubs and other organizations relative to selecting talent for special concerts this coming season of 1924-1925.

Mr. Apfelbeck is known as possessor of "The Golden Cross of Honor and Merit," member of the Society of Arts and Science, Vienna and Prague, representative of the International Concert and Theatre bureau at Vienna and Prague for the United States and Canada, also of the Allen Pichler International Opera and Concert company of New York for the Northwest. His list of artists includes many high grade artists, a number of them being familiar to Brainerd musicians.

Mr. Apfelbeck's visit here today was more in the nature of acquainting those who might be interested in seeing good talent engaged during the coming concert season in Brainerd.

Mme. Bailey-Apfelbeck, American pianist of world-fame, was heard in Brainerd last year.

John Seaman Carns, impersonator and baritone, and head of the dramatic department of the MacPhail School of Music of Minneapolis, also appeared in Brainerd last year.

Mrs. James A. Bliss, distinguished and noted accompanist, is also familiar to Brainerd audiences.

These, with Dr. Victor Nilsson and Gustav Schoettle, lecturers; Harrison Wall Johnson, pianist; Miss Lois Rogers, pianiste; George Klass, distinguished violinist; Goeran O'n Foellinger, eminent Swedish violinist-composer; Elias Breeskin, renowned Russian-American violinist; Engelbert Roentgen, famous Dutch cellist and composer and the famous Hadley dancers and St. Mark's choir are among the noted artists under the direction of Mr. Apfelbeck.

## MAKING STATE BLOSSOM SOON

Plans to be Discussed at Meeting to be Held in Chamber of Commerce Tuesday

### MUCH INTEREST BEING SHOWN

Purpose is to Stimulate a Greater Love of Flowers in Brainerd and Vicinity

Every promise is given of a splendid attendance at the meeting to be held at the Chamber of Commerce Tuesday afternoon at 2:30 o'clock when the plans will be discussed for "Making Minnesota Blossom" and particularly this section of it.

There is a greater interest being expressed than even the most hopeful had expected and it is desired that plans may be made for another garden flower show this summer in which gladioli, dahlias and other garden flowers may be exhibited.

The main purpose of the meeting will be to stimulate a greater interest in flower growing that Brainerd and vicinity may have more of the beauty given by flowers which blossom so abundantly here.

A miniature flower show will be held that it may be shown just what Brainerd and vicinity is now doing and it is asked that specimens of what is now blooming in the gardens be brought to the meeting. Vases will be supplied. You are urged to come and bring at least one kind of a flower. This invitation is open to everybody who loves flowers. L. P. Hall will be chairman of the meeting.

### JOINT PICNIC SUNDAY

Scandinavian-American Fraternity of Brainerd to Picnic With Deerwood Members

Bjornstjerne Bjornson Lodge No. 57, Scandinavian-American Fraternity, of Brainerd, will combine with the Deerwood lodge in an all-day picnic on beautiful Serpent lake, a mile west of Deerwood, tomorrow, (Sunday) July 20th.

Brainerd members of the fraternity are asked to meet at the corner of Oak and Tenth streets Sunday morning at nine o'clock, to go together to attend the outing. All members are urged to make a special effort to be present. An excellent picnic is assured.

## TO RAISE FUNDS FOR 10,000 LAKES

Committee in Charge of Handling Campaign Meets at Chamber of Commerce Rooms

### LAKE REGION IMPORTANT

Funds Raised Are Not For The Chamber of Commerce But Solicited in Interest of Every Taxpayer

The committee in charge of handling the campaign for funds for the Ten Thousand Lakes Association met at the Chamber of Commerce this afternoon, to make plans for the coming drive.

The committee wishes to call the attention of all Brainerd to the importance of the lakes region in the vicinity to the city of Brainerd. The northern lakes, and especially those waters tributary to the city, are one of the most valuable assets to the community, it is pointed out, and the committee, appointed from the Chamber of Commerce, hopes through its drive to solicit funds to advertise these lakes.

The committee wishes it understood that the funds so raised are not for the Chamber of Commerce, but are solicited in the interests of every tax-payer in Crow Wing county, be he a business man or laborer. All have a common interest in the summer tourist who visits this community. For this reason the liberal support of every citizen is solicited.

At the Ten Thousand Lakes Association office in St. Paul nearly every town in Northern Minnesota has a display of plenty of literature advertising the advantage of their respective communities. Brainerd has nothing of this nature in the St. Paul office. The committee hopes to include in this drive enough so that Brainerd may also be advertised to the end that tourists may know that there is a hearty welcome for them in the vicinity, instead of going elsewhere.

It is pointed out by the committee that every time an outsider builds a summer cottage in this community he leaves no small amount of money here. First he must purchase a lot, next he buys the material for building his cottage, third, he buys furnishings, he secures his labor in the community, he buys his groceries from the local merchants and dairy products from nearby farmers, and lastly he pays taxes to this county.

## MAGAZINE WRITERS VISIT MINNESOTA

Three magazine writers of national prominence are making Minnesota their vacation ground this summer, it is announced by the Ten Thousand Lakes of Minnesota Association.

Peter J. Schwab, one of the most prolific outdoor writers in America, is now fishing in the Mississippi river near Wadena for small mouth bass, and in the Whitewater river, near there for trout. Mr. Schwab is on the staff of Outers-Recreation, and a writer whose stories and articles are read by hundreds of thousands every month.

He will spend five weeks in Minnesota, visiting the Park Rapids district, Itasca park, Bemidji, the Iron range, Lake Vermilion, the St. Croix, and will take a canoe trip from Ely through the Superior National Forest.

Dr. Claude P. Fordyce, auto-camping editor of Outdoor Life, a member of the staff of Adventure, author of "Campercraft," "Auto Trails and Tours," and a number of other outdoor books, and of many magazine articles, is also coming. "Your Vast Playgrounds," which is running serially in Outers-Recreation, is attracting wide notice. Dr. Fordyce will come to Minnesota on August 4th, for an extended visit and a canoe trip in the Superior Forest, in order to obtain material for a new book.

Ozark Ripley, staff editor of a number of outdoor magazines and one of the best known outdoor writers, will come here later in the summer.

The visits by these writers is the culmination of efforts of the Ten Thousand Lakes of Minnesota Association, in co-operation with various recreation centers of the state, to give widespread publicity to the Minnesota outdoors by inviting and arranging trips for writers. Irwin Cobb was the first writer to visit the state this summer.

### He Had Lost Faith

At dinner a little girl became highly elated at discovering the wishbone of the chicken on her plate. At this her little brother remarked skeptically: "They're stupid things. I've had three wishbones and daddy hasn't got a motor-car yet!"

## SINCLAIR SERVICE STATION OPENING

New Station Gives Attractive Offer to Public on Monday, July 21

### OPERATE HANDSOME STATION

Gasoline, Oils and Greases Will be Handled, Service and Courtesy is Motto

The Sinclair Service Station, located on the northeast corner of Fourth and Laurel streets, will open for business on Monday morning with A. E. Niles as manager. Free motor oil will be given each purchaser of five gallons or more of gasoline.

The station grounds measure 40 by 100 feet and the station is built of tile with a kellestone finish. It is equipped with all material and pumpage for a two-pump station.

High and low test gasoline will be handled, also oils and greases. A grease pit is part of the service. The station is located almost directly opposite of the court house entrance and is on the general street and highway leading to the Tourist camp.

# JACK ZIVIC LOOKS LIKE A COMING CHAMP

By FRANK GETTY  
(United Press Staff Correspondent)

New York, July 19.—Of all the lightweights who aspire to the crown which Banneh Leonard cannot much longer hope to wear, young Jack Zivic of Pittsburgh looks the most promising.

Four years ago, around this time, Jack and his brother Pete were knocking over little Hungarians and Swedes and Brazilians in amateur bouts at the Olympic games at Antwerp.

Since then, the Zivic brothers have risen—if you like—to the professional ranks. Pete, the elder, is a feather; Jack, a lightweight.

This Jack is a workmanlike cuss, who is at present engaged with five or six other aspirants in a series of elimination bouts to see who is the best man to take a sock at Leonard—and probably a beating at the workmanlike hands of the champ.

Zivic disposed of the first two aspirants with whom he tangled, although he lost to Pal Moran of New Orleans on a technical foul. He was administering such a scientific, if somewhat over-energetic, beating to the southern veteran, that there was never any doubt as to which was the better man.

Then came Sid Barbarian, an ambitious young Armenian boy from Detroit, and he was handily knocked off by the Pittsburgher.

Zivic is a pleasure to watch. He is more active than Leonard, but there is something in his business-like way of going about things that reminds one of the title-holder. The former amateur can take on all kinds, but a rushing, tearing fighter is his particular dish. Jack is a two-handed fighter. He can keep his head and weather the worst storms. And he can hit, although not as hard as Leonard.

By and large, the Pittsburgh boy looks best of the challengers. His is a style which leads one to look for big things from him in the future. He has a head, and uses it.

Leonard is gaining weight, and soon will be unable to defend his title. He would beat Zivic now, because of his greater defensive skill and his knowledge of the fighting game, but Jack would give him a tougher battle than any of the others.

For an example of gameness, the performance of the negro lad, DeHart Hubbard, of the University of Michigan, in the finals of the broad jump in the Olympics at Paris is hard to beat.

On his first leap, something more than 24 feet, Hubbard suffered a painful injury to his leg—pulling one of the muscles badly.

Refusing to quit, although the coaches would have had him do so, assuring him that his negro team-mate, Gourdin, would win, Hubbard took one more jump.

He was suffering torture from his injury, but he hit the take-off gamely and hurled himself through the air, his jump measuring 24 feet 6 inches.

Then flesh and blood could withstand no more, and the game little negro lay in agony until he was carried into the dressing room. Half an hour later, while trainers still were working over him, he learned that his effort had been successful and that he had the honor of being a first-place winner for Uncle Sam.

# PIRATES FAIL

## TO APPEAR FOR FRIDAY GAME

RUMOR HAS IT THAT THE PIRATES HAVE DISBANDED FOR THE SEASON

### STUDY OF PERCENTAGE TABLE SHOWS SOME INTERESTING COMPARISONS

The Pirates failed to put in an appearance last night for their game with the Y. M. C. A., so no game was played. Rumor has it that the Pirates team has disbanded for the season. But one week remains to be played in the league. If the Pirates do not play their games, only three games are left. On Monday night the Seals and Pirates are scheduled; Tuesday night the Y. M. C. A. and B. A. C.; on Wednesday night the Pirates and Tigers; on Thursday night the Seals and Y. M. C. A.; and on Friday the Tigers and B. A. C.

A study of the figures for the season shows some interesting comparisons. The Y. M. C. A., who head the standings, are last in team batting, while the Pirates, who have not won a game, are next to the highest. The figures are:

Team	AB.	R.	H.	Pct.
Seals	181	51	51	.282
Pirates	148	16	40	.270
Tigers	208	42	54	.260
B. A. C.	90	28	21	.233
Y. M. C. A.	193	49	44	.228

There have been two shut-out games, the Y. M. C. A. being the victors of both, and in each case the Tigers were the victims, once by the score of 13-0, and the other time, 16-0. In the only other time that these teams met, the Tigers set the league record for number of hits, making 24, and defeated the Y. M. C. A., 14-2.

No pitcher has pitched a no-hit game, but Ericsson of the Y held the Tigers to one hit when he defeated them 13-0. And Ted Anderson of the Pirates held the Y. M. C. A. to one hit in the first game of the season, but lost his game, 4-1.

Zakariassen of the Seals defeated the Y. M. C. A., 13-2, holding the opposition to two hits, and Peterson of the Y. M. C. A. held the B. A. C. to two hits, defeating them 8-2. These comprise the best pitching feats of the season.

Those players who have been at bat at least ten times during the season and have a mark of .300 or better are as follows (Neimi of the B. A. C. team has five hits in eight trips, for a mark of .625):

Player	AB.	R.	H.	Pct.
Peterson, Y	18	11	11	.611
Gaskill, Seals	12	5	7	.583
Carlson, Pirates	16	3	9	.563
Jones, B. A. C.	10	2	5	.500
Elvig, Tigers	17	6	8	.471
Hurley, Seals	10	4	4	.400
O'Brien, Seals	10	1	4	.400
Molstad, Seals	19	5	7	.368
Anderson, Pirates	14	2	5	.357
Howard, Tigers	14	2	5	.357
Westberg, Pirates	17	2	6	.353
Aro, Pirates	17	1	6	.353
Hanson, Seals	20	8	7	.350
Swanson, Tigers	20	6	7	.350
Anderson, Tigers	25	6	8	.320
T. Stallman, Seals	16	3	5	.313

Besides leading the league with the best average, Peterson has the longest batting streak of any in the league. He has batted safely, with at least one hit, in every game in which he has taken part, five games. He also holds the star performance for a single game, making five hits

Above is shown an interesting play during the mixed doubles tourney held at Wimbledon, England. Miss Colyer is shown in play, her partner, Mr. J. D. P.

in five times at bat in the last game, against the Tigers. Other players who have batted safely at least once in each game in which they have taken part are: Gaskill and O'Brien, both of the Seals, in four games; Jones of the B. A. C. in three games, and Neimi of the B. A. C. in two games. After getting at least two hits in each of his first four games, Carlson of the Pirates failed to get a hit in the last games, Carlson of the Pirates failed to get a hit in the last game. Thorkildson of the Tigers made one hit in his first game, then failed to get a hit in the next game, but has batted safely once in each of the last four games, for a total batting average of .294.

## LITTLE TIGERS BEAT HEAVY HITTERS, 33-19

The "Little Tigers" won their second game from the "Heavy Hitters" on Friday afternoon by a score of 33 to 19, the same figures as Tuesday's game between the same teams.

The Tigers had a batting rampage in the seventh inning, when eighteen scores were chalked up.

The lineup is as follows:  
Little Tigers—H. Graff, c; H. Johnson, p; G. Elling, 1b; A. Englehart, 2b; F. Montgomery, 3b; D. Norquist, ss; and P. Murphy, lf.

Heavy Hitters—D. Rosina, c; B. Shelhorn, p; W. Abrahamson, 1b; I. Hagen, 2b; F. Koering, 3b; V. Marshall, ss; A. Abrahamson, lf.  
D. Montgomery and W. Murphy acted as umpires.

# JACK ZIVIC LOOKS LIKE A COMING CHAMP PIRATES FAIL

By FRANK GETTY  
(United Press Staff Correspondent)

New York, July 19.—Of all the lightweights who aspire to the crown which Bennet Leonard cannot much longer hope to wear, young Jack Zivic of Pittsburgh looks the most promising.

Four years ago, around this time, Jack and his brother Pete were knocking over little Hungarians and Swedes and Brazilians in amateur bouts at the Olympic games at Antwerp.

Since when, the Zivic brothers have risen—if you like—to the professional ranks. Pete, the elder, is a feather; Jack, a lightweight.

This Jack is a workmanlike cuss, who is at present engaged with five or six other aspirants in a series of elimination bouts to see who is the best man to take a sock at Leonard—and probably a beating at the workmanlike hands of the champ.

Zivic disposed of the first two aspirants with whom he tangled, although he lost to Pat Moran of New Orleans on a technical foul. He was administering such a scientific, if somewhat over-eager, beating to the southern veteran, that there was never any doubt as to which was the better man.

Then came Sid Barbarian, an ambitious young Armenian boy from Detroit, and he was handily knocked off by the Pittsburgher.

Zivic is a pleasure to watch. He is more active than Leonard, but there is something in his business-like way of going about things that reminds one of the title-holder. The former amateur can take on all kinds, but a rushing, tearing fighter is his particular dish. Jack is a two-handed fighter. He can keep his head and weather the worst storms. And he can hit, although not as hard as Leonard.

By and large, the Pittsburgh boy looks best of the challengers. His is a style which leads one to look for big things from him in the future. He has a head, and uses it.

Leonard is gaining weight, and soon will be unable to defend his title. He would beat Zivic now, because of his greater defensive skill and his knowledge of the fighting game, but Jack would give him a tougher battle than any of the others.

For an example of gameness, the performance of the negro lad, DeHart Hubbard, of the University of Michigan, in the finals of the broad jump in the Olympics at Paris is hard to beat.

On his first leap, something more than 24 feet, Hubbard suffered a painful injury to his leg—pulling one of the muscles badly.

Refusing to quit, although the coaches would have had him do so, assuring him that his negro team-mate, Gourdin, would win, Hubbard took one more jump.

He was suffering torture from his injury, but he hit the take-off gamely and hurled himself through the air, his jump measuring 24 feet 6 inches.

Then flesh and blood could withstand no more, and the game little negro lay in agony until he was carried into the dressing room. Half an hour later, while trainers still were working over him, he learned that his effort had been successful and that he had the honor of being a first-place winner for Uncle Sam.
